

BMG BullionFund

Class A - Canadian Dollars

BMG BullionFund is a Canadian open-end mutual fund trust that invests only in London Good Delivery gold, silver and platinum bars.

Investment Objective

The Fund's objective is to provide a secure, convenient, low cost, medium-risk alternative for investors seeking bullion for capital preservation, capital appreciation, portfolio diversification and portfolio hedging.

Fund Strategy

BMG BullionFund is an open-end mutual fund trust with a fixed investment policy that requires it to purchase equal dollar amounts of unencumbered gold, silver and platinum bullion. The bullion is to be held in allocated, insured storage. No derivatives, futures contracts, options or certificates are used. The maximum cash component is five percent. The fund invests in a responsible manner and adheres to the "criteria for responsible investing."

No Paper Bullion - BMG BullionFund does not invest in shares of mining companies, certificates, pooled accounts, closed-end funds, ETFs, derivatives, or bullion proxies of any kind.

Unencumbered Bullion - BMG BullionFund does not lease its holdings, and no derivatives, futures contracts or options are used.

Allocated Storage - BMG BullionFund's bullion is stored on an allocated and insured basis under a custodial agreement with the Bank of Nova Scotia in their LBMA - member vault in Toronto. Reports on bullion holdings from ScotiaMocatta include details of the refiner, exact weight, purity and serial number for each bar. Bar holdings are published on the BMG website and holdings are audited by BDO Canada LLP as part of their annual audit.

Third-Party Administrator - RBC Investor Services is responsible for the Fund's banking, record keeping and daily valuation. RBC Investor Services processes all redemptions and purchases and pays authorized Fund expenses.

Liquidity

Bullion is bought directly from or sold directly into the global bullion markets. Purchases or redemptions of any size can be accommodated without affecting Net Asset Value. As a result the Fund has the same liquidity as gold, silver and platinum bullion itself. In contrast, the liquidity of closed-end funds and ETFs are dependent on the number of shares that are traded.

No Counterparty Risk

BMG BullionFund owns the bullion outright, with no dependency on third parties and no possibility of third-party claims.

Independent of Portfolio Management Skills

BMG BullionFund has a fixed investment policy that cannot be varied without unitholder approval. Risk is avoided since the Fund does not hedge, market time, leverage or rebalance holdings. As a result, performance tracks the price of bullion and not the trading skills of a portfolio manager.

Tax Efficient

No sales tax or withholding tax is applicable on bullion in Canada. All tax consequences on redemptions flow through to the redeeming unitholder. The BMG BullionFund is approved for all Canadian registered plans, including RRSPs, RRFs & TFSA's.
