

BMG BullionFund

Semi-Annual Management Report of Fund Performance (Amended)

For the six-month period ended June 30, 2018

BMG
MANAGEMENT
SERVICES INC.
A BMG Company

Caution regarding forward-looking statements

Certain portions of this Semi-Annual Management Report of Fund Performance, including, but not limited to, “Recent Developments”, may contain forward-looking statements about the BMG BullionFund (the “BMG Fund”) including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “could”, “would”, “forecasts”, “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, “projects” and similar forward-looking expressions or negative versions thereof.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the BMG Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign currency rates, investment sentiment, volatility of precious metals prices, demand for various precious metals, and other factors affecting precious metals, currency fluctuations, global equity and capital markets, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above-mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the BMG Fund’s simplified prospectus, under the heading “Risk Factors.”

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware that the BMG Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance, and that the forward-looking statements speak only to the date of this Semi-Annual Management Report of Fund Performance.

This Semi-Annual Management Report of Fund Performance contains financial highlights, but does not contain either the semi-annual or annual financial statements, of the BMG Fund. If you have not received a copy of the BMG Fund’s semi-annual or annual financial statements, you may request a copy of such financial or quarterly portfolio disclosure at no cost by calling 1.888.474.1001, by writing to us at 280-60 Renfrew Drive, Markham, Ontario, L3R 0E1, or by visiting our website at www.bmg-group.com or SEDAR at www.sedar.com.

MANAGEMENT REPORT OF FUND PERFORMANCE

Investment Objective and Strategies

BMG BullionFund (the “BMG Fund”) invests in equal dollar proportions of unencumbered, fully allocated gold, silver and platinum bullion that is held by The Bank of Nova Scotia. The BMG Fund’s objective is to provide a secure and convenient method for investors seeking to hold gold, silver and platinum bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes.

All physical bullion purchased by the BMG Fund meets the London Good Delivery standard as set out by the London Bullion Market Association (LBMA).

By investing an equal portion of the BMG Fund's subscription proceeds in gold, silver and platinum bullion, the BMG Fund should be able to effectively reduce its volatility while improving long-term returns. This can be accomplished because the value of gold is based primarily on its monetary qualities, whereas the value of silver and platinum is based primarily on their usefulness as commodities. During normal economic times, the commodity demand for silver and platinum should be higher than for gold, and the value of silver and platinum should typically outperform the value of gold. In contrast, if monetary demand increases, then the value of gold should typically increase faster than that of silver or platinum, although over time both silver and platinum should follow the price of gold. As a result, by investing in all three metals, the BMG Fund should be able to reduce volatility while improving long-term returns.

The economic factors that determine the price of gold, silver and platinum are also, in most cases, opposed to the factors that determine the prices of most other financial assets. Ownership of BMG Fund units, therefore, acts as a hedge against the volatility of other investments. Units of a class of the BMG Fund are not speculative, and are only intended to be one part of an investment strategy.

A small portion of the BMG Fund's assets (generally no more than 5%) may be held in cash to allow the BMG Fund to pay its expenses, and to facilitate any redemption of units of a class of the BMG Fund. The BMG Fund will not use derivatives or invest in securities or certificates of companies that produce gold, silver or platinum bullion. The BMG Fund will not invest in foreign securities, and does not hedge its holdings. The BMG Fund’s objectives and strategies did not change in the first six months of 2018.

Risk

The risks associated with investing in the BMG Fund remain as stated in the simplified prospectus dated November 23, 2017. The principal risk associated with investing in the BMG Fund is the fluctuating price of precious metals, as well as fluctuations in the relationship between the Canadian and US dollars. In addition, the BMG Fund will be subject to precious metals risk, non-hedging strategy risk and specialization risk. Our view of the BMG Fund’s risk rating was unchanged in the first six months of 2018.

Results of Operations

All monetary amounts are expressed in Canadian dollars, unless otherwise indicated.

During the first six months of 2018, the net asset value (“NAV”) of the BMG Fund decreased 10.7%, from \$144.0 million at December 31, 2017 to \$128.6 million at June 30, 2018. The decrease was primarily driven by \$14.1 million in net redemptions, \$1.9 million in operating expenses and \$4.6 million in unrealized losses on bullion investment, offset by \$5.3 million in realized gains on bullion investment during the period. As at June 30, 2018, the BMG Fund’s bullion holdings were 41,637 ounces of gold, 2,307,422 ounces of silver and 10,075 ounces of platinum, compared to 47,742 ounces of gold, 2,582,173 ounces of silver and 10,075 ounces of platinum at December 31, 2017.

For the six months ended June 30, 2018, the NAV per unit of the BMG Fund’s Class A units decreased by 1.3% in Canadian dollars and 6.0% in US dollars, while the NAV per unit of the BMG Fund’s Class F units decreased by 0.8% in Canadian dollars, and 5.5% in US dollars. The lower performance in US dollars is due to the US dollar appreciation of 4.8% against the Canadian dollar in the first six months of 2018. Please see *Past Performance* for the performance data of other classes.

MANAGEMENT REPORT OF FUND PERFORMANCE (*continued*)

Daily average net assets decreased by 23.0%, from \$181.1 million during the first six months of 2017 to \$139.5 million for the same period in 2018. The decrease is primarily driven by net redemptions. Total expenses declined by 20.9%, less than the decline in daily average net assets as certain operating expenses are fixed.

Gold started the year at US\$1,296.50 per ounce, reached a high of US\$1,354.95 in January, and closed at US\$1,250.45 on June 30, 2018, a 3.6% decrease from the prior year end. In Canadian dollars, the gold price experienced a 1.3% increase over the same period.

Silver started the year at US\$16.87 per ounce, reached a high of US\$17.52 in January, and closed at US\$16.03 on June 30, 2018, a 5.0% decrease from the prior year end. In Canadian dollars, the silver price experienced a 0.2% decrease over the same period.

Platinum started the year at US\$925 per ounce, reached a high of US\$1,020 in January, and closed at US\$851 on June 30, 2018, an 8.0% decrease from the prior year end. In Canadian dollars, the platinum price experienced a 3.6% decrease over the same period.

Recent Developments

Trade tensions that were simmering since the start of the year boiled over by the end of June with the US initiating tariffs on steel and aluminum during the first quarter. Trading partners, including Canada, Mexico, China and the European Union, have instituted retaliatory tariffs on the US in response, and it would seem that we are at the beginning of a global trade war. Canada would be deeply affected if the US were to impose tariffs on the auto industry as threatened. A renegotiated NAFTA agreement, which seemed to be within reach earlier in the year, is now in limbo. With up to US\$500 billion in tariffs threatened against China, it appears that this will be a protracted trade war, likely leading to lower global growth with the potential of the global economy slipping into another recession. The Chinese economy, which is a key driver of global growth, is already experiencing the impact of the trade dispute. Political tensions with certain regimes such as North Korea have waned, but global trade disputes are now leading to new or heightened geopolitical tensions, as seen at the G7 meeting held in June.

Inflation has been rising in Canada and many other economies, including the US, China and India. The US Federal Reserve continues to raise interest rates as it seeks to gradually revert to a more normalized interest rate environment, given the strong economy, job creation and rising inflation. Other central banks, including Canada's, have also raised interest rates. The European Central Bank has diverged from this trend by announcing that it will maintain its policy rates until the summer of 2019 and stop its asset purchases by the end of 2018. Higher tariffs increase the risk that inflation will continue to rise, leading to even higher short-term interest rates. There is a flattening of the US yield curve, and we may be on the cusp of an inverted yield curve. The enormous global debt levels, which grew by US\$8 trillion in the first quarter of 2018, along with high asset values, have the potential to trigger another financial crisis. Central bankers will be faced with the tough dilemma of rising inflation and slowing growth.

The US dollar has been strengthening, but how much longer it continues to do so depends of the effect of the trade war. Bullion, which is priced in US dollars and tends to be negatively correlated to the US dollar, has been moving lower. However, the aforementioned heightened risks to the global economy are a stark reminder as to the importance of a diversified portfolio that includes bullion.

Amendment to Semi-Annual Financial Statements -Income taxes

As at June 30, 2018, the BMG Fund had no capital or non-capital losses available to offset future years' taxable income. This differs from what was previously reported.

For tax purposes, the BMG Fund generally treats gains from the disposition of bullion as capital gains, rather than income, as it intends to be a long-term passive holder of bullion, and it generally disposes of its holdings in bullion only for the purposes of meeting redemptions or to fund the payment of expenses incurred by the BMG Fund. The Canada Revenue Agency has, however, expressed the opinion that gains or losses of mutual fund trusts resulting from transactions in commodities should generally be treated for tax purposes as ordinary income rather than as capital gains, although the treatment in each particular case remains a question of fact to be determined having regard to all the circumstances. The Canada Revenue Agency may assert that its position applies to BMG Fund's transactions in respect of bullion.

MANAGEMENT REPORT OF FUND PERFORMANCE *(continued)*

Related-Party Transactions

Manager and Trustee

BMG Management Services Inc. (the “Manager”) is the manager, trustee, registrar and transfer agent for the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. At June 30, 2018, the Manager held one Class A unit and 100 Class D units of the BMG Fund.

In consideration of management and administrative services, the BMG Fund pays the Manager a monthly management fee based on the NAV of the various classes of units of the BMG Fund, calculated daily. For the six months ended June 30, 2018, the BMG Fund incurred management fees of \$1,378,231.

Distributor

BMG Marketing Services Inc., an affiliate of the Manager, has been retained by the Manager to assist with the marketing and distribution of units of the BMG Fund in the exempt market pursuant to prospectus exemptions.

Independent Review Committee

The Manager has created an independent review committee (“IRC”) to review and provide impartial judgment on conflict of interest matters. The IRC reviews potential conflicts of interest referred to it by the Manager, and makes recommendations on whether a course of action is fair and reasonable for the BMG Fund. The IRC prepares an annual report of its activities for interested parties. A copy of the IRC’s report for 2017 is available at www.bmg-group.com.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about each class of units of the BMG Fund, and are intended to help you understand the BMG Fund's financial performance for the past six months ended June 30, 2018, and the years shown ended December 31, and/or from the period since the particular class was first offered. The information is derived from the BMG Fund's financial statements.

For explanatory notes, please refer to "Explanatory Notes to Financial Highlights" at the end of the section.

Explanatory Notes to Financial Highlights

Fund's Net Assets per Unit of each Class

(1) This information is derived from the BMG Fund's financial statements. In the period a BMG Fund or class is established, the financial information is provided from the date a particular class was first offered to the end of the period. The NAV per class presented in the financial statements does not differ from the NAV per class calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations is based on the weighted average number of units outstanding over the fiscal period. This table is not intended to be a reconciliation of opening and closing net assets per unit.

(3) The BMG Fund did not make any distributions.

Ratios and Supplemental Data

(1) This information is provided as at the end of the period shown.

(2) The management expense ratio is based on total expenses for the stated period, and is expressed as an annualized percentage of daily average NAV during the period.

(3) The trading expense ratio represents the total commissions and other portfolio transaction costs expressed as an annualized percentage of NAV during the period.

(4) The BMG Fund's portfolio turnover rate indicates how actively the BMG Fund's bullion investments are traded. A portfolio turnover rate of 100% is equivalent to the BMG Fund buying and selling all its bullion once in the course of the relevant period. There is no trading cost payable by the BMG Fund. The higher a portfolio turnover rate in a year, the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the BMG Fund.

FINANCIAL HIGHLIGHTS *(continued)*

Management Fees

Management fees are paid by each class of the BMG Fund to the Manager, and are calculated at the applicable annual percentage of the NAV of each class of the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. A portion of the management fees paid by the BMG Fund is for trailer fees paid to dealers. The trailer fees are a percentage of the daily average NAV of the applicable class of units of the BMG Fund that are held by the dealers' clients. No trailer fees are paid with respect to Class C1, Class C2 and Class F units of the BMG Fund. The table below outlines the BMG Fund's annual management fees for the Class A, Class B2, Class B3, Class C1, Class C2, Class D and Class F units of the BMG Fund, and how those fees are split between trailer fees and portfolio administration.

	Class A	Class B2	Class B3	Class C1	Class C2	Class D	Class F
Management Fee	2.25%	1.49%	1.25%	1.00%	0.87%	1.50%	1.25%
Portfolio Administration Fee	55.6%	59.4%	60%	100%	100%	83.3%	100%
Trailer Fee <i>(maximum rate as a percentage of management fees)</i>	44.4%	41.6%	40%	0%	0%	16.7%	0%

Out of the management fees that the Manager received from the BMG Fund, the Manager paid trailer fees of \$528,233 during the six months ended June 30, 2018.

Operating Expenses

For the six months ended June 30, 2018, the Manager did not absorb BMG Fund operating expenses, because the management expense ratios were below the expense cap. The decision to reduce operating expenses is made at the discretion of the Manager, and may be changed at any time.

PAST PERFORMANCE

The following information does not take into account sales or redemption charges that would have reduced returns. Past performance does not necessarily indicate how the BMG Fund will perform in the future.

Class D units have been offered for less than 12 months, therefore performance is not available for disclosure for this class.

Year-by-Year Returns

The following bar charts show the BMG Fund's performance for each class of units of the BMG Fund in Canadian and US dollars, as applicable, in each of the years shown and for the six months ended June 30, 2018. They illustrate how the BMG Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year has increased or decreased by the last day of each financial period.

Class A

Class B2

The return shown for 2014 is for the period from February 24, 2014, the date the Class B2 units were first offered.

PAST PERFORMANCE (continued)

Class B3

The return shown for 2013 is for the period from November 11, 2013, the date the Class B3 units were first offered.

Class C1

The return shown for 2015 is for the period from March 27, 2015, the date the Class C1 units were first offered.

Class C2

The return shown for 2014 is for the period from March 12, 2014, the date the Class C2 units were first offered.

PAST PERFORMANCE (continued)

Class F

SUMMARY OF INVESTMENT PORTFOLIO

As at June 30, 2018

	Allocated ounces	Unallocated ounces	Total Fine ounces	Average Cost \$	Fair Value \$	Total %
Gold Bullion	41,078.261	558.316	41,636.577	42,207,945	68,487,892	53.0
Platinum Bullion	10,012.540	62.354	10,074.894	14,966,056	11,278,649	8.7
Silver Bullion	2,279,488.802	27,933.313	2,307,422.115	38,327,404	48,655,586	37.6
Cash				890,218	889,836	0.7
Total Investment				96,391,623	129,311,963	100.0

Since the BMG Fund does not rebalance its portfolio holdings, the 33.3% allocation target may differ due to the difference in performance of each metal.

Due to ongoing portfolio transactions, the Summary of Investment Portfolio may have changed by the time you purchase units of the BMG Fund. A quarterly update is available. To obtain a copy, please contact our Client Services team at 1.888.474.1001, or visit www.bmg-group.com.
