A BMG Company

Caution regarding forward-looking statements

Certain portions of this Semi-Annual Management Report of Fund Performance, including, but not limited to, “Recent Developments”, may contain forward-looking statements about the BMG BullionFund (the “BMG Fund”) including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “could”, “would”, “forecasts”, “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, “projects” and similar forward-looking expressions or negative versions thereof.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the BMG Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign currency rates, investment sentiment, volatility of precious metals prices, demand for various precious metals, and other factors affecting precious metals, currency fluctuations, global equity and capital markets, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above-mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the BMG Fund’s simplified prospectus, under the heading “Risk Factors.”

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware that the BMG Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance, and that the forward-looking statements speak only to the date of this Semi-Annual Management Report of Fund Performance.

This Semi-Annual Management Report of Fund Performance contains financial highlights, but does not contain either the semi-annual or annual financial statements of the BMG Fund. If you have not received a copy of the BMG Fund’s semi-annual or annual financial statements, you may request a copy of such financial or quarterly portfolio disclosure at no cost by calling 1.888.474.1001, by writing to us at 280-60 Renfrew Drive, Markham, Ontario, L3R 0E1, or by visiting our website at www.bmg-group.com or SEDAR at www.sedar.com.

MANAGEMENT REPORT OF FUND PERFORMANCE

Investment Objective and Strategies

BMG BullionFund (the “BMG Fund”) invests in equal dollar proportions of unencumbered, fully allocated gold, silver and platinum bullion that is held by The Bank of Nova Scotia. The BMG Fund’s objective is to provide a secure and convenient method for investors seeking to hold gold, silver and platinum bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes.

All physical bullion purchased by the BMG Fund meets the London Good Delivery standard as set out by the London Bullion Market Association (“LBMA”).

By investing an equal portion of the BMG Fund's subscription proceeds in gold, silver and platinum bullion, the BMG Fund should be able to effectively reduce its volatility while improving long-term returns. This can be accomplished because the value of gold is based primarily on its monetary qualities, whereas the value of silver and platinum is based primarily on their usefulness as commodities. During normal economic times, the commodity demand for silver and platinum should be higher than for gold, and the value of silver and platinum should typically outperform the value of gold. In contrast, if monetary demand increases, then the value of gold should typically increase faster than that of silver or platinum, although over time both silver and platinum should follow the price of gold. As a result, by investing in all three metals, the BMG Fund should be able to reduce volatility while improving long-term returns.

The economic factors that determine the price of gold, silver and platinum are also, in most cases, opposed to the factors that determine the prices of most other financial assets. Ownership of BMG Fund units, therefore, acts as a hedge against the volatility of other investments. Units of a class of the BMG Fund are not speculative, and are only intended to be one part of an investment strategy.

A small portion of the BMG Fund's assets (generally no more than 5%) may be held in cash to allow the BMG Fund to pay its expenses, and to facilitate any redemption of units of a class of the BMG Fund. The BMG Fund will not use derivatives or invest in securities or certificates of companies that produce gold, silver or platinum bullion. The BMG Fund will not invest in foreign securities, and does not hedge its holdings. The BMG Fund’s objectives and strategies did not change in the first six months of 2020.

Risk

The risks associated with investing in the BMG Fund remain as stated in the simplified prospectus dated November 27, 2019. The principal risk associated with investing in the BMG Fund is the fluctuating price of precious metals, as well as fluctuations in the relationship between the Canadian and US dollars. In addition, the BMG Fund will be subject to precious metals risk, non-hedging strategy risk and specialization risk. Our view of the BMG Fund’s risk rating was unchanged in the first six months of 2020.

Results of Operations

All monetary amounts are expressed in Canadian dollars, unless otherwise indicated.

During the first six months of 2020, the net asset value (“NAV”) of the BMG Fund increased 3.3%, from \$104.2 million at December 31, 2019 to \$107.6 million at June 30, 2020. The increase was primarily driven by \$10.8 million in realized and unrealized gains on bullion, offset by \$6.0 million in net redemptions and \$1.4 million in operating expenses during the period. As at June 30, 2020, the BMG Fund’s bullion holdings were 24,636 ounces of gold, 1,465,994 ounces of silver and 11,222 ounces of platinum, compared to 26,998 ounces of gold, 1,591,337 ounces of silver and 10,746 ounces of platinum as at December 31, 2019.

For the six-month period ended June 30, 2020, the NAV per unit of the BMG Fund’s Class A units increased by 9.1% in Canadian dollars and 3.9% in US dollars, while the NAV per unit of the BMG Fund’s Class F units increased by 9.7% in Canadian dollars and 4.5% in US dollars. The better performance in Canadian dollars is due to the Canadian dollar depreciation of 4.8% against the US dollar in the first six months of 2020. Please see *Past Performance* for the performance data of other classes.

MANAGEMENT REPORT OF FUND PERFORMANCE (*continued*)

Daily average net assets decreased by 4.0%, from \$109.2 million during the first six months of 2019 to \$104.8 million for the same period in 2020. The decrease is primarily driven by net redemptions. Total expenses declined by 8.6% because of the decline in average net assets.

During the first six months of 2020, the gold price increased by 16.3%, from US\$1,523.00 on December 31, 2019 to a high of US\$1,771.60 per ounce in June, and closed at US\$1,768.10 on June 30. The prices of silver and platinum followed a similar pattern. The silver price reached a high of US\$18.78 per ounce in February, fell to a low of US\$12.01 per ounce in March, and closed at US\$17.85 on June 30. The platinum price reached a high of US\$1,017 per ounce in January, and closed at US\$814.00 on June 30.

Recent Developments

During the first half of 2020, the global COVID-19 pandemic placed enormous negative implications on the world economy. In an attempt to slow the spread of the virus, governments ordered businesses to close and employees to self-quarantine at home. As a result of the shutdowns, the unemployment rate is approaching levels reached during the Great Depression, and this has led to reduced economic growth and a dramatic expansion of debt at all levels. Major institutions, such as the OECD and the World Bank, have forecasted negative GDP growth for the economy throughout 2020 with estimates for recovery in GDP occurring in 2021. Governments around the world have urgently responded to the COVID-19 pandemic through unprecedented expansion of monetary policy in an attempt to compensate employees and businesses that were shut down. A combination of historically low interest rates and elevated levels of financial stimulus from central banks created an artificial floor for declining equity market prices, which have since recovered to near highs. The reduction to near zero for interest rates continues to reduce the cost of carrying precious metals, such as gold, silver and platinum. However, the implications of the unprecedented increase in debt through liquidity injections provided by central banks has caused a debasement in currencies with a positive effect on precious metals.

Deteriorating economic conditions led many investors and institutions towards safe-haven assets such as precious metals; however, not all precious metals have performed in the same manner. Gold has displayed extraordinary performance throughout the first half of the year, as it has appreciated 21.9% in Canadian dollars (CAD) and 16.1% in US dollars (USD). Additionally, gold experienced significantly less downside volatility during the stock market crash. Gold held its value, losing only 3.2% (USD), while traditional classes such as the S&P 500 lost more than 30%. Silver has appreciated 3.9% in CAD but depreciated 1.1% in USD, while platinum has depreciated 12.0% in CAD and 16.2% in USD. With growing demand for exchange-traded products within the gold and silver markets, it is evident that economic conditions are leading more investors towards safe-haven assets. Investor sentiment has favoured gold allocation through the first half of 2020; however, the increasing divergence between the gold:silver ratio indicates that upside exists for silver for the second half of 2020.

The industrial applications for platinum and silver have experienced significant supply chain issues caused by the COVID-19 pandemic. However, some of the downside pressure has been contained through increased demand for bars and coins. Although the demand for exchange-traded products relating to platinum have surpassed 2012 levels, the price levels have not followed suit, as the long-term downtrend of platinum prices still affects consumer sentiment. If financial stimulus continues to be provided in order to aid the reopening of economies, industrial usage will increase. If this trend continues into the latter half of 2020, gold will continue to appreciate, while silver and platinum will experience recoveries in value.

Related-Party Transactions

Manager and Trustee

BMG Management Services Inc. (the “Manager”) is the manager, trustee, registrar and transfer agent for the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. At June 30, 2020, the Manager held no units of the BMG Fund.

In consideration of management and administrative services, the BMG Fund pays the Manager a monthly management fee based on the NAV of the various classes of units of the BMG Fund, calculated daily. For the six months ended June 30, 2020, the BMG Fund incurred management fees of \$1,008,843.

MANAGEMENT REPORT OF FUND PERFORMANCE *(continued)*

Distributor

BMG Marketing Services Inc., an affiliate of the Manager, has been retained by the Manager to assist with the marketing and distribution of units of the BMG Fund in the exempt market pursuant to prospectus exemptions.

Independent Review Committee

The Manager has created an independent review committee (“IRC”) to review and provide impartial judgment on conflict of interest matters. The IRC reviews potential conflicts of interest referred to it by the Manager, and makes recommendations on whether a course of action is fair and reasonable for the BMG Fund. The IRC prepares an annual report of its activities for interested parties. A copy of the IRC’s report for 2019 is available at www.bmg-group.com.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about each class of units of the BMG Fund, and are intended to help you understand the BMG Fund's financial performance for the past six months ended June 30, 2020, and the years shown ended December 31, and/or from the period since the particular class was first offered. The information is derived from the BMG Fund's financial statements.

FINANCIAL HIGHLIGHTS *(continued)*

Explanatory Notes to Financial Highlights

Fund's Net Assets per Unit of each Class

(1) This information is derived from the BMG Fund's financial statements. In the period a BMG Fund or class is established, the financial information is provided from the date a particular class was first offered to the end of the period. The NAV per class presented in the financial statements does not differ from the NAV per class calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations is based on the weighted average number of units outstanding over the fiscal period. This table is not intended to be a reconciliation of opening and closing net assets per unit.

Ratios and Supplemental Data

(1) This information is provided as at the end of the period shown.

(2) The management expense ratio is based on total expenses for the stated period, and is expressed as an annualized percentage of daily average NAV during the period.

(3) The trading expense ratio represents the total commissions and other portfolio transaction costs expressed as an annualized percentage of NAV during the period.

(4) The BMG Fund's portfolio turnover rate indicates how actively the BMG Fund's bullion investments are traded. A portfolio turnover rate of 100% is equivalent to the BMG Fund buying and selling all its bullion once in the course of the relevant period. There is no trading cost payable by the BMG Fund. The higher a portfolio turnover rate in a year, the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the BMG Fund.

Management Fees

Management fees are paid by each class of the BMG Fund to the Manager, and are calculated at the applicable annual percentage of the NAV of each class of the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. A portion of the management fees paid by the BMG Fund is for trailer fees paid to dealers. The trailer fees are a percentage of the daily average NAV of the applicable class of units of the BMG Fund that are held by the dealers' clients. No trailer fees are paid with respect to Class C1, Class C2, Class C3 and Class F units of the BMG Fund. The table below outlines the BMG Fund's annual management fees for the Class A, Class B2, Class B3, Class C1, Class C2, Class C3, Class D and Class F units of the BMG Fund, and how those fees are split between trailer fees and portfolio administration.

	Class A	Class B2	Class B3	Class C1	Class C2	Class C3	Class D	Class F
Management Fee	2.25%	1.49%	1.25%	1.00%	0.87%	0.75%	1.50%	1.25%
Portfolio Administration Fee	55.6%	59.4%	60%	100%	100%	100%	83.3%	100%
Trailer Fee <i>(maximum rate as a percentage of management fees)</i>	44.4%	41.6%	40%	0%	0%	0%	16.7%	0%

Out of the management fees that the Manager received from the BMG Fund, the Manager paid trailer fees of \$350,774 during the six months ended June 30, 2020.

Operating Expenses

For the six months ended June 30, 2020, the Manager did not absorb BMG Fund operating expenses, because the management expense ratios were below the expense cap. The decision to reduce operating expenses is made at the discretion of the Manager, and may be changed at any time.

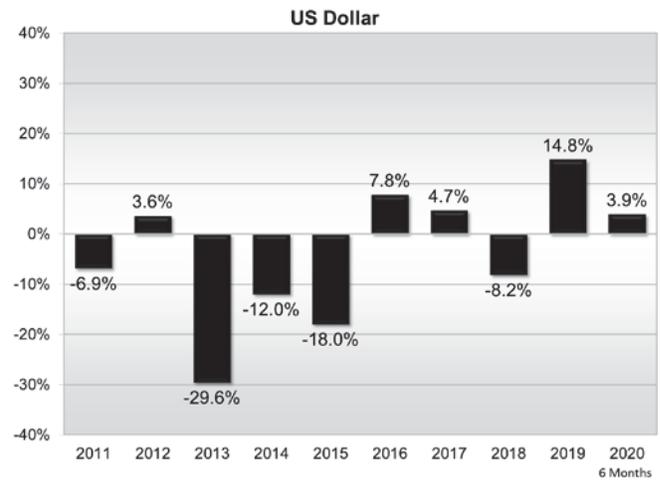

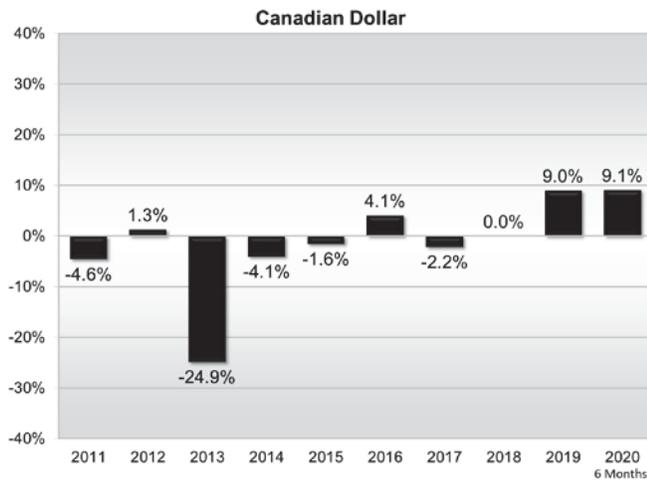

PAST PERFORMANCE

The following information does not take into account sales or redemption charges that would have reduced returns. Past performance does not necessarily indicate how the BMG Fund will perform in the future.

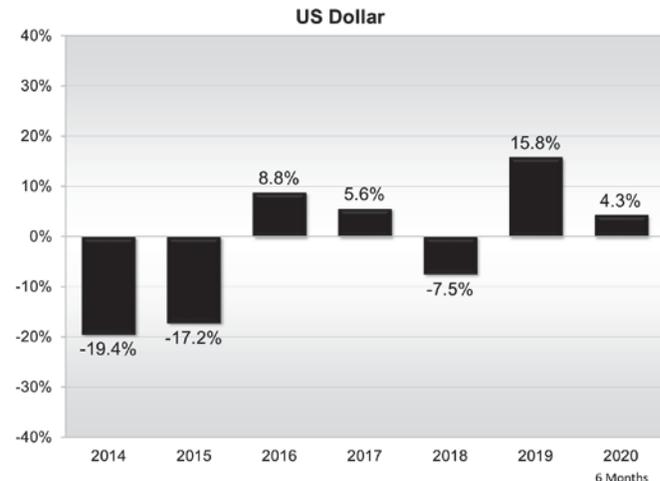

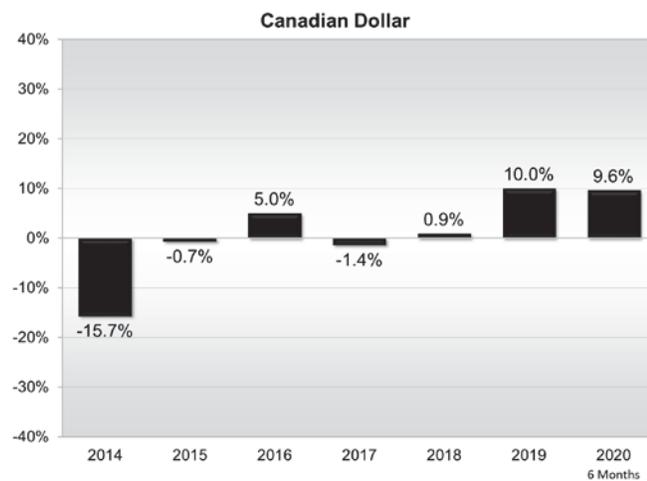

Year-by-Year Returns

The following bar charts show the BMG Fund's performance for each class of units of the BMG Fund in Canadian and US dollars, as applicable, in each of the years shown, and for the six months ended June 30, 2020. They illustrate how the BMG Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year has increased or decreased by the last day of each financial period.

Class A

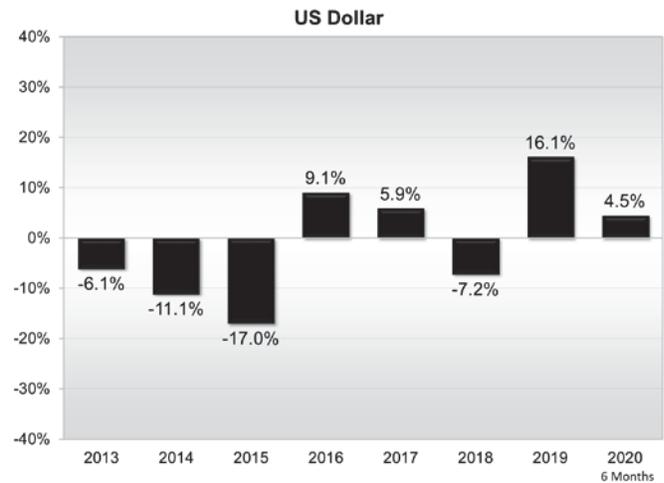

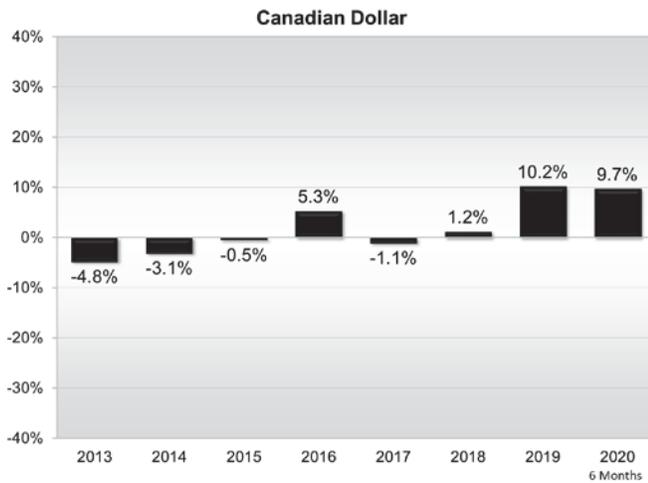

Class B2

The return shown for 2014 is for the period from February 24, 2014, the date the Class B2 units were first offered.

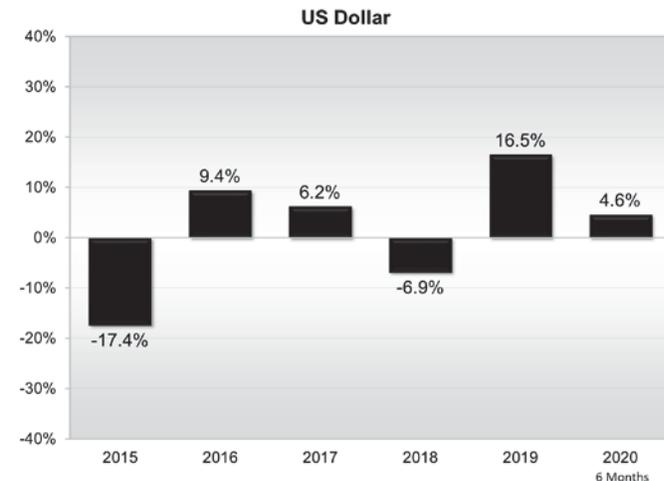

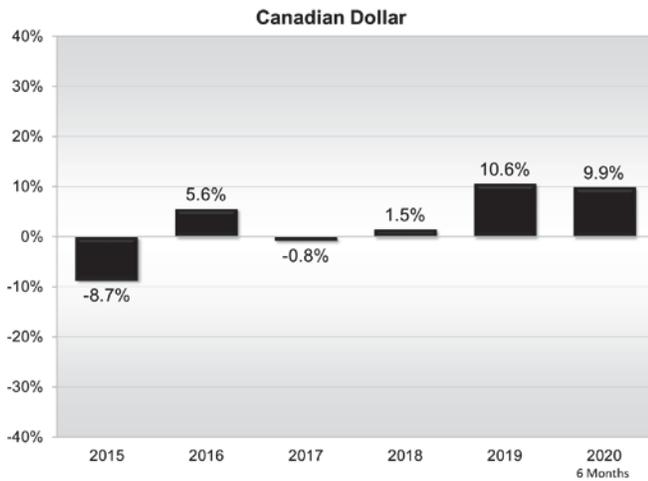

PAST PERFORMANCE (continued)

Class B3

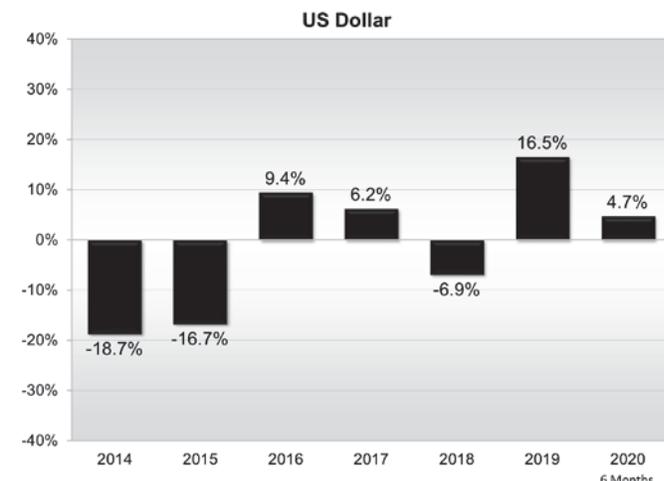

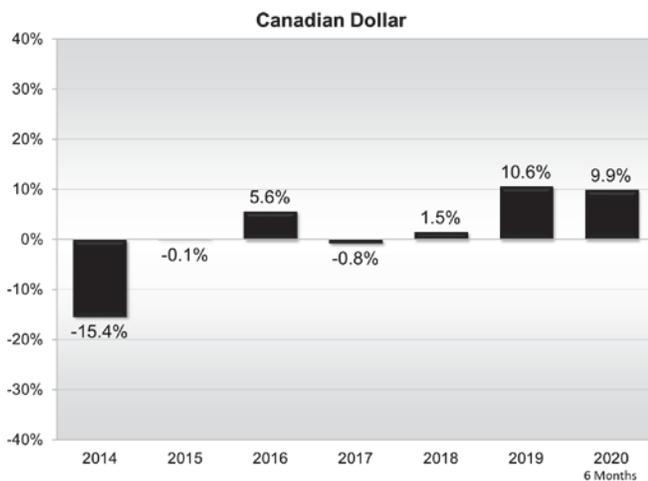

The return shown for 2013 is for the period from November 11, 2013, the date the Class B3 units were first offered.

Class C1

The return shown for 2015 is for the period from March 27, 2015, the date the Class C1 units were first offered.

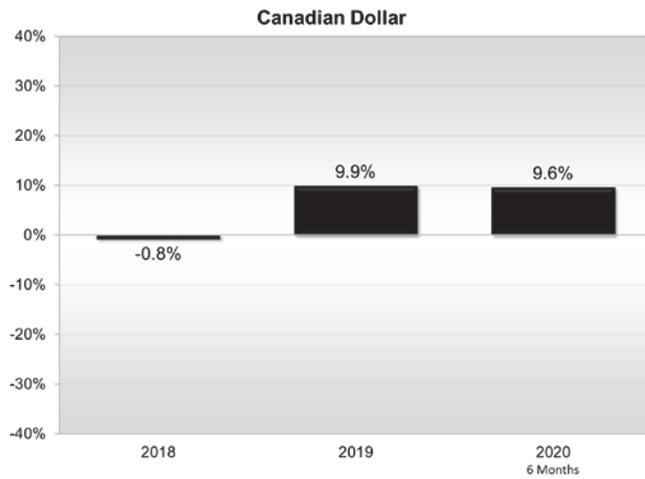

Class C2

The return shown for 2014 is for the period from March 12, 2014, the date the Class C2 units were first offered.

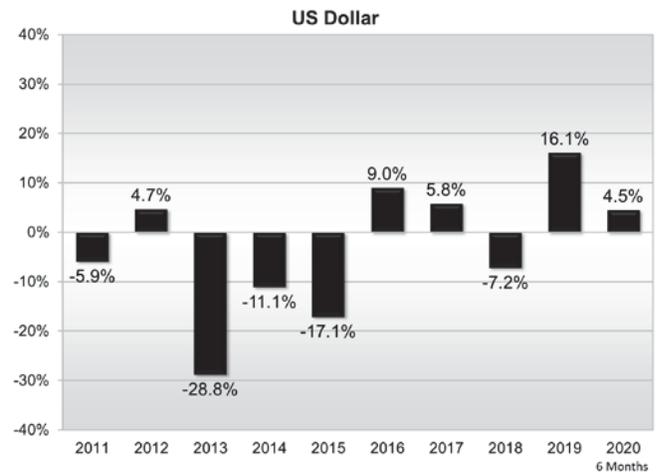

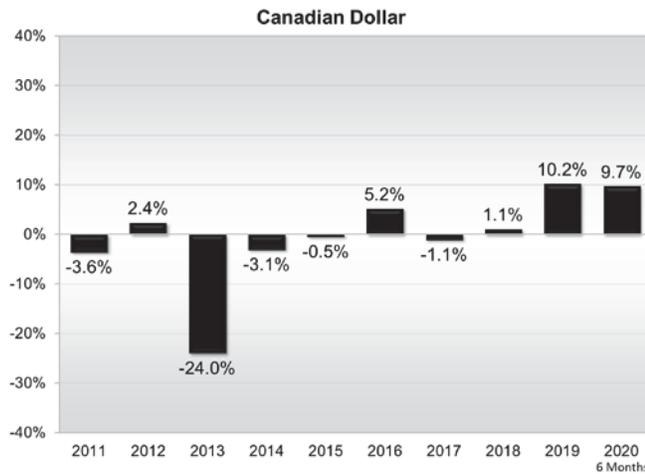

PAST PERFORMANCE (continued)

Class D

The return shown for 2018 is for the period from January 16, 2018, the date the Class D units were first offered.

Class F

SUMMARY OF INVESTMENT PORTFOLIO

As at June 30, 2020

	Allocated ounces	Unallocated ounces	Total Fine ounces	Average Cost \$	Fair Value \$	Total %
Gold Bullion	24,238.312	398.099	24,636.411	25,488,684	59,328,654	51.2
Platinum Bullion	10,934.706	287.307	11,222.013	16,215,446	12,441,945	11.6
Silver Bullion	1,442,073.384	23,920.801	1,465,994.185	24,566,602	35,631,039	33.1
Net Investment				66,270,732	107,401,638	99.9
Cash and Other Assets Less Liabilities					159,777	0.1
Net assets attributable to holders of redeemable units					107,561,415	100.0

As at December 31, 2019

	Allocated ounces	Unallocated ounces	Total Fine ounces	Average Cost \$	Fair Value \$	Total %
Gold Bullion	26,639.928	358.134	26,998.062	27,635,568	59,319,796	51.2
Platinum Bullion	10,628.549	117.650	10,746.119	15,713,131	13,531,426	13.0
Silver Bullion	1,571,131.524	20,205.793	1,591,337.317	26,564,480	37,236,996	35.7
Net Investment				69,913,179	104,088,218	99.9
Cash and Other Assets Less Liabilities					126,488	0.1
Net assets attributable to holders of redeemable units					104,214,706	100.0

Since the BMG Fund does not rebalance its portfolio holdings, the 33.3% allocation target may differ due to the difference in performance of each metal.

Due to ongoing portfolio transactions, the Summary of Investment Portfolio may have changed by the time you purchase units of the BMG Fund. A quarterly update is available. To obtain a copy, please contact our Client Services team at 1.888.474.1001, or visit www.bmg-group.com.
