Caution regarding forward-looking statements

Certain portions of this Annual Management Report of Fund Performance, including, but not limited to, “Recent Developments”, may contain forward-looking statements about the BMG Silver BullionFund (the “BMG Fund”), including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “could”, “would”, “forecasts”, “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, “projects” and similar forward-looking expressions or negative versions thereof.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the BMG Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign currency rates, investment sentiment, volatility of precious metals prices, demand for various precious metals, and other factors affecting precious metals, currency fluctuations, global equity and capital markets, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above-mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the BMG Fund’s simplified prospectus, under the heading “Risk Factors.”

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware that the BMG Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance, and that the forward-looking statements speak only to the date of this Annual Management Report of Fund Performance.

This Annual Management Report of Fund Performance contains financial highlights, but does not contain the annual financial statements of the BMG Fund. If you did not receive a copy of the BMG Fund’s annual or interim financial statements, you may request a copy of such financial or quarterly portfolio disclosure at no cost by calling 1.888.474.1001, by writing to us at 280-60 Renfrew Drive, Markham, Ontario, L3R 0E1, or by visiting our website at www.bmg-group.com or SEDAR at www.sedar.com.

MANAGEMENT REPORT OF FUND PERFORMANCE

Investment Objective and Strategies

BMG Silver BullionFund (the “BMG Fund”) invests in unencumbered, fully allocated physical silver that is held by RBC Investor and Treasury Services. The BMG Fund’s objective is to provide a secure, convenient method for investors seeking to hold silver bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes.

All physical bullion purchased by the BMG Fund meets the London Good Delivery standard as set out by the London Bullion Market Association (the “LBMA”).

The economic factors that determine the price of silver are, in most cases, opposed to the factors that determine the prices of most other financial assets. Ownership of BMG Fund units, therefore, acts as a hedge against the volatility of other investments. Units of a class of the BMG Fund are only intended to be one part of an investment strategy.

A small portion of the BMG Fund's assets (generally no more than 5%) may be held in cash to allow the BMG Fund to pay its expenses, and to facilitate any redemption of units of a class of the BMG Fund. The BMG Fund will not use derivatives or invest in securities or certificates of companies that produce silver bullion. The BMG Fund will not invest in foreign securities, and it does not hedge its holdings. The value of the BMG Fund, therefore, is purely a function of the spot price of silver bullion. The BMG Fund’s objectives and strategies did not change in 2021.

Risk

The risks associated with investing in the BMG Fund remain as stated in the simplified prospectus dated November 27, 2020. The principal risk associated with investing in the BMG Fund is the fluctuating price of silver, as well as fluctuations in the relationship between the Canadian and US dollars. In addition, the BMG Fund will be subject to precious metals risk, non-hedging strategy risk and specialization risk. Our view of the BMG Fund’s risk rating was unchanged in 2021.

Results of Operations

All monetary amounts are expressed in Canadian dollars, unless otherwise indicated.

In 2021, the net asset value (the “NAV”) of the BMG Fund increased 6.7%, from \$19.9 million at December 31, 2020 to \$21.2 million at June 30, 2021. The increase was primarily driven by \$2.6 million in net subscriptions and offset by a loss of \$1.1 million in realized and unrealized gains and \$0.2 million in operating activities. As at June 30, 2021, the BMG Fund’s silver holdings were 660,481 ounces, compared to 588,503 ounces at December 31, 2020.

In the first six months of 2021, the NAV per unit of the BMG Fund’s Class A units decreased by 6.6% in Canadian dollars, and by 3.9% in US dollars, while the NAV per unit of the BMG Fund’s Class F units decreased by 6.0% in Canadian dollars, and by 3.3% in US dollars.

Silver started the year at US\$26.33 per ounce and closed at US\$25.77 on June 30.

Recent Developments

COVID-19 continues to provide shocks across the global economy in 2021. Elevated levels of uncertainty that became present in 2020 have continued into 2021, as many corporations and small businesses continue to change the way they operate.

The effects of the lockdowns were apparent with respect to major global economies, as both Canada and the US experienced significant declines in GDP. Canada’s GDP declined 5.4% in 2020, while US real GDP declined 3.7%. These drops were synonymous globally; the average worldwide decline in real GDP was 4.2%. In the first six months of 2021 as restrictions implemented in 2020 were lifted, the economy began to rebound significantly, entering a period of super-charged growth. Canada is expected to grow by 6.5%, driving concerns of additional inflation. Inflation has already reached 3.7% annualized, well above the 2% originally forecasted. The risk of future inflation presents an excellent catalyst for precious metals in the future.

MANAGEMENT REPORT OF FUND PERFORMANCE (*continued*)

To combat the repercussions caused by the lockdowns, central banks across the world continue to inflate their balance sheets to aid their attempts to provide stability in the markets. Canada and most advanced economies face similar financial and economic realities. In its latest Global Financial Stability Report, the International Monetary Fund (IMF) identified several key vulnerabilities in the global financial system. In particular, it pointed to signs of excessive risk taking and stretched valuations.

Given these elevated financial vulnerabilities, a sudden decline in investors' risk appetite—perhaps due to a major setback in the global recovery from the pandemic—could result in a sharp deterioration in global financial conditions.

Overall, silver displayed superior returns from a historical and relative context. With conventional measures like the P/E ratio continuing to be at historic highs not seen since 1929, and with margin debt 314% higher than its 2008 level, it is clear that equity markets are overvalued.

In addition to an overheated stock market, the housing market appears to be in same situation with the S&P/Case-Shiller 20 City Index 86% higher than the 2008 value, with 17% of that increase coming in 2021 alone. Given the historical levels of these measures, the value of adding precious metals to a portfolio have never been higher. Adding 10% in silver bullion to a standard 60/40 portfolio increases the compound annual growth rate from 6.59% to 7.07%, while increasing the Sharpe ratio from .61 to .70. Adding 20% in silver bullion to the portfolio increases the compound annual growth rate from 6.59% to 7.52%, while increasing the Sharpe ratio from .61 to .77.

In Canada, silver started the year at \$33.55 and ended the six-month period at \$31.9, which represents a 4.9% decline in 2021. In the US, silver started the year at US\$26.33 and ended the six-month period at US\$25.77, which represents a 2.1% decline in 2021.

Considering the existing economic conditions and potential of downside catalysts due to mounting geopolitical unrest, excessive government borrowing, and overheated markets, it can be anticipated that precious metals will begin appreciating again and likely outperforming most other asset classes in 2021.

Related-Party Transactions

Manager and Trustee

BMG Management Services Inc. (the “Manager”) is the manager, trustee, registrar and transfer agent for the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. At June 30, 2021, the Manager held no units of the BMG Fund.

In consideration of management and administrative services, the BMG Fund pays the Manager a monthly management fee based on the NAV of the various classes of units of the BMG Fund, calculated daily. For the six-month period ended June 30, 2021, the BMG Fund incurred management fees of \$100,850.

Distributor

BMG Marketing Services Inc., an affiliate of the Manager, has been retained by the Manager to assist with the marketing and distribution of units of the BMG Fund in the exempt market pursuant to prospectus exemptions.

Independent Review Committee

The Manager has created an independent review committee (the “IRC”) to review and provide impartial judgment on conflict of interest matters. The IRC reviews potential conflicts of interest referred to it by the Manager, and makes recommendations on whether a course of action is fair and reasonable for the BMG Fund. The IRC prepares an annual report of its activities for interested parties. A copy of the IRC's report for 2020 is available at www.bmg-group.com.

The following tables show selected key financial information about each class of units of the BMG Fund, and are intended to help you understand the BMG Fund's financial performance for the for the six months ended June 30, 2021, and/or from the period since the particular class was first offered. The information is derived from the BMG Fund's financial statements.

For explanatory notes, please refer to "Explanatory Notes to Financial Highlights" at the end of the section.

Explanatory Notes to Financial Highlights

Fund's Net Assets per Unit of each Class

(1) This information is derived from the BMG Fund's financial statements. In the period a BMG Fund or class is established, the financial information is provided from the date a particular class was first offered to the end of the period. The NAV per class presented in the financial statements does not differ from the NAV per class calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations is based on the weighted average number of units outstanding over the fiscal period. This table is not intended to be a reconciliation of opening and closing net assets per unit.

(3) The BMG Fund did not make any distributions.

Ratios and Supplemental Data

(1) This information is provided as at the end of the period shown.

(2) The management expense ratio is based on total expenses for the stated period, and is expressed as an annualized percentage of daily average NAV during the period.

(3) The trading expense ratio represents the total commissions and other portfolio transaction costs expressed as an annualized percentage of NAV during the period.

(4) The BMG Fund's portfolio turnover rate indicates how actively the BMG Fund's silver bullion investments are traded. A portfolio turnover rate of 100% is equivalent to the BMG Fund buying and selling all its silver bullion once in the course of the relevant period. There is no trading cost payable by the BMG Fund. The higher a portfolio turnover rate in a year, the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the BMG Fund.

FINANCIAL HIGHLIGHTS *(continued)*

Management Fees

Management fees are paid by each class of the BMG Fund to the Manager, and are calculated at the applicable annual percentage of the NAV of each class of the BMG Fund. A portion of the management fees paid by the BMG Fund is for trailer fees paid to dealers. The trailer fees are a percentage of the daily average NAV of the applicable class of units of the BMG Fund that are held by the dealers' clients. No trailer fees are paid with respect to Class F units of the BMG Fund. The table below outlines the BMG Fund's annual management fees for Class A, Class D and Class F units, and how those fees are split between trailer fees and portfolio administration.

	Class A	Class D	Class F
Management Fee	2.25%	1.50%	1.25%
Portfolio Administration Fee	55.6%	83.3%	100%
Trailer Fee <i>(maximum rate as a percentage of management fees)</i>	44.4%	16.7%	0%

Out of the management fees that the Manager received from the BMG Fund, the Manager paid trailer fees of \$32,378 during the period ended June 30, 2021.

Operating Expenses

For the period ended June 30, 2021, the Manager absorbed BMG Fund operating expenses of \$2,248. The decision to reduce operating expenses is made at the discretion of the Manager, and may be changed at any time.

PAST PERFORMANCE

The following information does not take into account sales or redemption charges that would have reduced returns. Past performance does not necessarily indicate how the BMG Fund will perform in the future.

Year-by-Year Returns

The following bar charts show the BMG Fund's performance for each class of units of the BMG Fund in Canadian and US dollars, as applicable, in each of the years shown. They illustrate how the BMG Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year has increased or decreased by the last day of each financial year.

Class A

The return shown for 2016 is for the period from September 26, 2016, the date the Class A units were first offered.

PAST PERFORMANCE (continued)

Class D

The return shown for 2018 is for the period from January 18, 2018, the date the Class D units were first offered.

Class F

The return shown for 2016 is for the period from September 26, 2016, the date the Class F units were first offered.

PAST PERFORMANCE *(continued)*

Annual Compound Returns

The following table shows the annual compound total returns for each class of units of the BMG Fund in Canadian and US dollars since inception, or for the ten-, five-, three- and one-year periods ended on December 31, 2020, as applicable. Annual returns in Canadian dollars are compared to inflation as measured by the Canadian Consumer Price Index (the “CPI”) as calculated by Statistics Canada, as well as to Bank of Canada’s 3-month Treasury Bills. Annual returns in US dollars are compared to inflation as measured by the US CPI as calculated by the US Department of Labor, as well as to US 3-month Treasury Bills.

Class A

	Since Inception (September 2016)	3 Year	1 Year
The BMG Fund Class A CDN\$	2.4%	12.4%	37.8%
Inflation (CPI, Statistics Canada)	1.5%	1.7%	0.7%
Bank of Canada, 3-month Treasury Bills	1.0%	1.2%	0.4%
The BMG Fund Class A US\$	3.4%	11.8%	40.2%
Inflation (CPI, US Dept. of Labor)	1.8%	1.9%	1.4%
US, 3-month Treasury Bills	1.3%	1.5%	0.4%

Class D

	Since Inception (January 2018)	1 Year
The BMG Fund Class D CDN\$	13.3%	38.8%
Inflation (CPI, Statistics Canada)	1.5%	0.7%
Bank of Canada, 3-month Treasury Bills	1.2%	0.4%

Class F

	Since Inception (September 2016)	3 Year	1 Year
The BMG Fund Class F CDN\$	3.6%	13.6%	39.2%
Inflation (CPI, Statistics Canada)	1.5%	1.7%	0.7%
Bank of Canada, 3-month Treasury Bills	1.0%	1.2%	0.4%
The BMG Fund Class F US\$	4.5%	13.0%	41.7%
Inflation (CPI, US Dept. of Labor)	1.8%	1.9%	1.4%
US, 3-month Treasury Bills	1.3%	1.5%	0.4%

SCHEDULE OF INVESTMENT PORTFOLIO

As at June 30, 2021
(Unaudited)

	Allocated ounces	Unallocated ounces	Total Fine ounces	Average Cost \$	Fair Value \$	Total %
Silver Bullion	631,526.670	28,954.464	660,481.134	16,417,250	21,072,486	99.2
Net Investment				16,417,250	21,072,486	99.2
Cash and Other Assets Less Liabilities					161,945	0.8
Net assets attributable to holders of redeemable units					21,234,431	100.0

The BMG Fund's investments in silver bullion are held pursuant to a custodial agreement with a major Canadian chartered bank (or subsidiary thereof) on an allocated, segregated basis.

The allocated silver bullion is recorded by refinery, exact weight in ounces and identification number.

The BMG Fund's silver bullion is free and clear of any lien or claim that the major Canadian chartered bank (or subsidiary thereof) may have, except where the claim arises from any unpaid costs.

NOTES TO FINANCIAL STATEMENTS

(Unaudited)

1. Formation of the Fund

BMG Silver BullionFund (the “BMG Fund”) was established under the laws of Ontario by a Master Declaration of Trust and Regulation each dated September 21, 2016, as amended. The BMG Fund commenced operation on September 26, 2016. The address of the BMG Fund’s registered office is: 280-60 Renfrew Drive, Markham, ON, L3R 0E1. BMG Management Services Inc. (the “Manager”) is the trustee and manager of the BMG Fund. The BMG Fund currently offers four classes of units.

The classes were first started on the following dates:

Class A	September 26, 2016	Class F	September 26, 2016
Class D	January 16, 2018	Class I	February 27, 2019

All classes share the same attributes from a valuation perspective, except that they are subject to different management fee rates.

The BMG Fund invests only in silver bullion, with the objective of providing a secure, convenient, low-cost alternative for investors seeking to hold silver bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes. The BMG Fund’s fixed investment strategy avoids the need for a portfolio manager.

The BMG Fund has been closely monitoring developments related to COVID-19, including the existing and potential effect on global and local economies, and has implemented its business continuity plan, thus ensuring minimal interruption to the business. Governments worldwide have put various measures in place to contain the spread of the virus; these have directly and indirectly affected many businesses. The longer-term effects of the COVID-19 situation will depend on future developments that are highly uncertain, rapidly evolving and difficult to predict. These effects may differ in magnitude depending on a number of scenarios, which the BMG Fund continues to monitor and take into consideration.

The interim financial statements were authorized for issue by the Board of Directors on August 19, 2021.

2. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

Basis of Preparation

These interim financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) including International Accounting Standards (“IAS”) 34: *Interim Financial Reporting*, as issued by the International Accounting Standards Board (“IASB”).

The Statements of Financial Position are at June 30, 2021 and December 31, 2020, and the Statements of Comprehensive Income (Loss), Changes in Net Assets Attributable to Holders of Redeemable Units and Cash Flows are for the six-month periods ended June 30, 2021 and 2020. The Schedule of Investment Portfolio is as at June 30, 2021. Throughout this document, reference to the periods refers to the reporting periods described above. These interim financial statements should be read in conjunction with the annual financial statements contained in the BMG Fund’s 2020 Annual Report.

The interim financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments in silver bullion at fair value through profit or loss, and are presented in Canadian dollars, which is the BMG Fund’s functional and presentation currency.

NOTES TO FINANCIAL STATEMENTS *(continued)*

(Unaudited)

Financial Instruments

(a) Classification

The BMG Fund classifies its investments in silver bullion based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The performance of the investments in silver bullion is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. As such, the BMG Fund classifies its investments in silver bullion at fair value through profit or loss.

The Funds' obligation for net assets attributable to holders of redeemable units represents a financial liability and is measured at the redemption amount, which approximates fair value as of the reporting date. All other financial assets and liabilities are measured at amortized cost.

(b) Recognition/derecognition

Purchases and sales of investments in silver bullion are recognized on the trade date, the date on which the BMG Fund commits to purchase or sell the investment. Transaction costs for such instruments are recognized directly in the Statements of Comprehensive Loss as incurred. Financial assets classified at amortized cost are recognized on the day that they are transferred to the BMG Fund at fair value, plus transaction costs that are directly attributable to their acquisition or issue.

Financial assets are derecognized when the rights to receive cash flows from the assets have expired, or the BMG Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities, other than those at fair value through profit or loss, are recognized initially at fair value plus transaction costs that are directly attributable to their acquisition or issue. Financial liabilities arising from the redeemable units issued by the BMG Fund are presented at the redemption amount representing the investors' right to a residual interest in the BMG Fund's net assets.

Realized gains and losses on investments in silver bullion are recognized as "Net realized losses on investments in silver bullion" in the Statements of Comprehensive Income. Costs of investments in silver bullion are determined on an average cost basis.

(c) Subsequent measurement

Subsequent to initial recognition, the BMG Fund measures all financial instruments classified at fair value through profit or loss at fair value, with changes in the fair value recognized as "Change in net unrealized gains on investments in silver bullion" in the Statements of Comprehensive Income. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The fair value of financial instruments traded in active markets is based on their quoted market prices at the close of trading on the reporting date. The fair value of financial instruments that are not traded in an active market, if any, is determined using a valuation technique, or sourced from a reputable broker/counterparty.

(d) Fair value measurement

Fair value is the price that would be received on the sale of an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the BMG Fund has access at that date.

The value of silver bullion is priced based on the available spot price. The difference between the silver bullion spot price and the average cost of the investment in silver bullion held at the Statements of Financial Position date is shown as "Change in net unrealized gains on investments in silver bullion."

The fair values of investments denominated in foreign currencies are translated into Canadian dollars at the rates of exchange applicable on the relevant valuation date.

NOTES TO FINANCIAL STATEMENTS *(continued)*

(Unaudited)

(e) Classification of fair value measurement

IFRS 13 requires the BMG Fund to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurement. The fair value hierarchy has the following levels:

Level 1	Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the BMG Fund can access at the measurement date
Level 2	Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
Level 3	Inputs are unobservable inputs for the asset or liability

Fair value of investments in silver bullion is classified at Level 1 within the fair value hierarchy.

Income and Expense Recognition

The BMG Fund follows the daily accrual method of recording investment income and expenses. Expenses such as management fees specifically related to each class of units of the BMG Fund are charged directly to that class of units. Income, expenses and realized and unrealized gains (losses) are allocated to each class of the BMG Fund based on that class's pro-rated share of the total net assets of the BMG Fund.

Foreign Currency Translation

The BMG Fund's subscriptions and redemptions are denominated in Canadian dollars, which is also its functional and presentation currency. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the dates that transactions occur. Foreign currency monetary assets and liabilities are translated into the functional currency using the exchange rate prevailing on the measurement date. Foreign exchange gains and losses are presented in the Statements of Comprehensive Income.

Calculation of Per-Unit Net Asset Value ("NAV") Attributable to Holders of Redeemable Units

The NAV of each class of units of the BMG Fund is calculated in Canadian dollars at 4:00 p.m. (EST) on each day that the Toronto Stock Exchange is open for trading.

The NAV per unit of each class of the BMG Fund that is used for subscriptions and redemptions is the same as the net assets attributable to holders of redeemable units per unit of that class that is used in these financial statements.

A separate NAV is calculated for each class of units of the BMG Fund by taking that class's proportionate share of the BMG Fund's assets less that class's proportionate share of the BMG Fund's common liabilities and deducting from this amount all liabilities that relate solely to that specific class. The NAV per unit for each class is determined by dividing the NAV of each class by the number of units of that class outstanding at the relevant valuation date.

Income Taxes

The BMG Fund qualifies as a mutual fund trust under the Income Tax Act (Canada). All of the BMG Fund's net income for tax purposes and sufficient capital gains realized in any period are required to be distributed to unitholders such that no tax is payable by the BMG Fund. As a result, the BMG Fund does not record income taxes. Since the BMG Fund does not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset. Refer to Note 6 for unused income tax losses.

NOTES TO FINANCIAL STATEMENTS (continued)

(Unaudited)

Increase (Decrease) in Per-Unit Net Assets Attributable to Holders of Redeemable Units

Any increase (decrease) in per-unit net assets attributable to holders of redeemable units represents the change in net assets attributable to holders of redeemable units of each class divided by the weighted average number of units of that class of the BMG Fund outstanding during the period (see Note 3).

Critical Estimates and Judgments

In the application of the BMG Fund's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily available from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Board of Directors considers the currency of the primary economic environment in which the BMG Fund operates to be the Canadian dollar, as this is the currency that, in their opinion, most faithfully represents the economic effects of underlying transactions, events and conditions. Furthermore, the Canadian dollar is the currency in which the BMG Fund measures its performance, and also issues and redeems its redeemable units.

New Standards, Interpretations and Amendments effective January 1, 2021

The BMG Fund did not have to change its accounting policies or make retrospective adjustments for new or amended standards that are applicable for the current reporting period.

New Standards, Interpretations and Amendments effective after June 30, 2021 that have not been early adopted

No new standards and interpretations that are effective after June 30, 2021, have been early adopted in preparing these interim financial statements. None of these are expected to have a material effect on the interim financial statements of the BMG Fund.

3. Redeemable Units

Each unit of each class of the BMG Fund represents an interest in the assets of that class of the BMG Fund. All units of a class of the BMG Fund generally have the same rights and privileges. Each unit of each class of the BMG Fund is entitled to one vote at any meeting of unitholders of the BMG Fund. Each unit of each class of the BMG Fund is also entitled, subject to any management fee distributions, to participate equally in any distributions by the BMG Fund. Fractional units of a class of the BMG Fund are proportionately entitled to all the same rights as other units of that class of the BMG Fund, except that they are non-voting. All units of each class of the BMG Fund are fully paid when issued, and are generally not transferable. Units of each class of the BMG Fund are redeemable at the option of the unitholder owning such units. The number of units of the BMG Fund that may be issued is unlimited. The units of each class of the BMG Fund are issued and redeemed at the NAV per unit of that class of the BMG Fund. There are no differences between the NAV per unit of each class of the BMG Fund and the Net Assets Attributable to Holders of Redeemable Units per Unit of each class of the BMG Fund.

4. Related-Party Transactions

Management Fees

The Manager is responsible for the day-to-day activities of the BMG Fund, providing or arranging for all required administrative services, and arranging for the distribution of units of the BMG Fund. For these services, the BMG Fund pays the Manager an annual management fee as defined by the rates set out below. The fees are payable monthly in arrears based on the average daily net assets of the BMG Fund.

NOTES TO FINANCIAL STATEMENTS *(continued)*

(Unaudited)

Class A	2.25%
Class D	1.50%
Class F	1.25%
Class I	0.00%

For the six-month period ended June 30, 2021, the BMG Fund incurred management fees of \$100,850 (2020: \$46,727).

For the six-month period ended June 30, 2021, the Manager absorbed the BMG Fund operating expenses of \$2,249 (2020: \$14,389). The decision to reduce expenses is made at the discretion of the Manager and may be changed at any time.

Holdings of Related Party

The Manager did not hold any units of funds on June 30, 2021 and 2020.

5. Sales Commission

A sales commission may be charged by a registered dealer or representative at the time an investor buys Class A units or Class B units of the BMG Fund. The maximum amount of the sales commission for Classes A and B is 5.26% of the net amount invested. The sales commission is only negotiable for Classes A and B. No sales commission is currently charged for the Class F units of the BMG Fund. A discount dealer may charge a fee at the time an investor buys Class D units.

The Manager paid trailer fees to dealers of \$32,569 during the first six months of 2021 [2020: \$16,467].

6. Income Tax Loss Carryforwards

As at December 31, 2020, the BMG Fund had no non-capital losses available to offset future years' taxable income.

For tax purposes, the BMG Fund generally treats gains from the disposition of bullion as capital gains, rather than income, as it intends to be a long-term passive holder of bullion, and it generally disposes of its holdings in bullion only for the purposes of meeting redemptions or to fund the payment of expenses incurred by the BMG Fund. The Canada Revenue Agency has, however, expressed the opinion that gains or losses of mutual fund trusts resulting from transactions in commodities should generally be treated for tax purposes as ordinary income rather than as capital gains, although the treatment in each particular case remains a question of fact to be determined having regard to all the circumstances. The Canada Revenue Agency may assert that its position applies to BMG Fund's transactions in respect of bullion.

As at December 31, 2020, the BMG Fund has no capital loss carryforwards [December 31, 2019: \$0] available to offset future years' taxable income.

7. Financial Risk Management

The BMG Fund's financial instruments consist primarily of cash, subscriptions receivable, due from Manager, investments in silver bullion, management fees payable, redemptions payable, due to broker, and accounts payable and accrued liabilities. The BMG Fund's cash and silver bullion holdings are exposed to various types of risk, including market risk, credit risk, liquidity risk, interest rate risk and currency risk. These risks and related risk-management practices employed by the BMG Fund are described below.

Market Risk

Market risk is the risk that the fair value or future cash flows of silver bullion investments will fluctuate because of changes in market prices or transaction timing. The market price of silver is affected by a variety of factors, including demand, supply, international events and economic events. The BMG Fund employs a purchase-and-hold investment strategy with purchases in one type of investment. Since the BMG Fund does not lease silver, the only future cash flows will be from dispositions of silver bullion. Dispositions of bullion will be necessary to pay redemptions when cash reserves are not adequate.

NOTES TO FINANCIAL STATEMENTS *(continued)*

(Unaudited)

As at June 30, 2021, the effect on the BMG Fund's net assets if there were a 5% increase or decrease in the price of silver bullion, with all other variables held constant, would be an increase, or decrease, of \$1,053,624 [December 31, 2020: \$987,124].

The actual result will vary depending upon the quantity of silver held and other factors, and the difference may be material.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. As at June 30, 2021 and December 31, 2020, the BMG Fund had no investments in debt instruments and/or derivatives. The BMG Fund limits its exposure to credit loss by placing its cash in high-credit-quality issuers. Dispositions of silver bullion, if any, are with a major Canadian chartered bank (or subsidiary thereof) that is a recognized dealer in bullion. The BMG Fund may have credit exposure to the Canadian chartered bank (or subsidiary thereof) to the extent of any unsettled trades.

Liquidity Risk

Liquidity risk is the risk that a fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The BMG Fund is exposed to daily cash redemptions of redeemable units. The BMG Fund aims to retain sufficient cash positions to maintain liquidity. In addition, silver bullion is readily realizable and liquid. Therefore, the BMG Fund's liquidity risk is minimal. All liabilities are payable within a year. Redeemable units are redeemable on demand at the holder's option. However, the Manager does not expect that the contractual maturity will be representative of the actual cash outflows, as holders of these instruments typically retain them for longer periods. The tables below analyze the BMG Fund's financial liabilities into relevant maturity groupings based on the remaining period to the contractual maturity date. The amounts in the table are contractual undiscounted cash flows.

June 30, 2021

Financial liabilities	On demand	< 3 Months	Total
Management fees payable	\$ -	\$ 19,335	\$ 19,335
Accounts payable and accrued liabilities	-	34,681	34,681
Redeemable units	21,234,431	-	21,234,431

December 31, 2020

Financial liabilities	On demand	< 3 Months	Total
Management fees payable	\$ -	\$ 16,636	\$ 16,636
Redemptions payable	-	1,000	1,000
Accounts payable and accrued liabilities	-	56,549	56,549
Redeemable units	19,909,202	-	19,909,202

Interest Rate Risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of markets interest rates on the fair value of financial assets and liabilities and future cash flow. The majority of the BMG Fund's financial assets and liabilities were non-interest-bearing as at June 30, 2021 and December 31, 2020. Accordingly, the BMG Fund is not directly exposed to significant risk due to fluctuations in the prevailing levels of market interest rates.

Currency Risk

Foreign currency risk arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. Silver bullion is generally quoted and traded in US dollars and, as a result, the BMG Fund is subject to foreign currency risk. The BMG Fund does not hedge its foreign currency exposure.

NOTES TO FINANCIAL STATEMENTS (continued)

(Unaudited)

The BMG Fund holds cash in Canadian and US dollars to pay redemptions and operating costs. The Manager monitors the cash balance of the BMG Fund on a daily basis, and only purchases silver bullion when surplus cash is available. Normally the cash balance is less than 5% of the assets of the BMG Fund.

As at June 30, 2021, 99.4% [December 31, 2020: 99.3%] of the BMG Fund's net assets were exposed to US dollars. If the exchange rate with the Canadian dollar increased or decreased by 1% with all other variables held constant, net assets would have increased or decreased respectively by approximately \$211,076 [December 31, 2020: \$197,704].

Actual results may differ from this sensitivity analysis and the difference could be material, because the price of bullion tends to be negatively correlated with the US dollar.

Foreign Currency Exposure

June 30, 2021

Description	US \$	Canada \$	Total \$
Cash	35,074	153,193	188,267
Investments in silver bullion	21,072,486	-	21,072,486
Other Net Assets	-	(26,322)	(26,322)
Net Assets	21,107,560	126,871	21,234,431
Percent	99.4%	0.6%	100.0%

December 31, 2020

Description	US \$	Canada \$	Total \$
Cash	27,920	186,447	214,367
Investments in silver bullion	19,742,474	-	19,742,474
Other Net Assets	-	(47,639)	(47,639)

Percent	99.3%	0.7%	100.0%

8. Capital Management

Redeemable units issued and outstanding are considered to be the capital of the BMG Fund. The BMG Fund does not have any specific capital requirements on the subscription and redemption of units, other than certain minimum subscription requirements. Unitholders are entitled to require payment of the net asset value per unit of the BMG Fund for all or any of the units of such unitholder by giving written notice to the Manager. The written notice must be received no later than 4:00 p.m. EST on the valuation day upon which the units are to be redeemed. Additionally, the notice must be irrevocable and the signature thereon must be guaranteed by a Canadian chartered bank, a trust company or an investment dealer acceptable to the Manager. The units are redeemable for cash equal to a pro rata share of the BMG Fund's net asset value.

9. Fair Value Measurement

All fair value measurements above are recurring. The carrying values of cash, due from Manager, accounts payable and accrued liabilities, management fees payable and the BMG Fund's obligation for net assets attributable to holders of redeemable units approximate their fair values because of their short-term nature. Fair values are classified as Level 1 when the related investment is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are classified into Level 2, unless the measurement of their fair value requires the use of significant unobservable inputs, in which case they are classified as Level 3.

There were no transfers between levels for the six month period ended June 30, 2021 and for the year ended 2020. In addition, there were no investments or transactions classified in Level 3 for the six month period ended June 30, 2021 and for the year ended 2020.
