Caution regarding forward-looking statements

Certain portions of this Annual Management Report of Fund Performance, including, but not limited to, “Recent Developments”, may contain forward-looking statements about the BMG Gold BullionFund (the “BMG Fund”) including statements with respect to strategies, risks, expected performance events and conditions. Forward-looking statements include statements that are predictive in nature, that depend upon or refer to future events or conditions, or that include words such as “could”, “would”, “forecasts”, “expects”, “anticipates”, “intends”, “plans”, “believes”, “estimates”, “projects” and similar forward-looking expressions or negative versions thereof.

Forward-looking statements are not guarantees of future performance and actual results or events could differ materially from those expressed or implied in any forward-looking statements made by the BMG Fund. Any number of important factors could contribute to these digressions, including, but not limited to, general economic, political and market factors in North America and internationally, such as interest and foreign currency rates, investment sentiment, volatility of precious metals prices, demand for various precious metals, and other factors affecting precious metals, currency fluctuations, global equity and capital markets, changes in government relations, unexpected judicial or regulatory proceedings and catastrophic events. We stress that the above-mentioned list of important factors is not exhaustive. Some of these risks, uncertainties and other factors are described in the BMG Fund’s simplified prospectus, under the heading “Risk Factors.”

We encourage you to consider these and other factors carefully before making any investment decisions. Forward-looking statements should not be unduly relied upon. Further, you should be aware that the BMG Fund has no specific intention of updating any forward-looking statements whether as a result of new information, future events or otherwise, prior to the release of the next Management Report of Fund Performance, and that the forward-looking statements speak only to the date of this Annual Management Report of Fund Performance.

This Annual Management Report of Fund Performance contains financial highlights, but does not contain either the semi-annual or Annual financial statements of the BMG Fund. If you have not received a copy of the BMG Fund’s semi-annual or annual financial statements, you may request a copy of such financial statements or quarterly portfolio disclosure at no cost by calling 1.888.474.1001, by writing to us at 110 Cochrane Drive, Suite 200, Markham, ON L3R 9S1, or by visiting our website at www.bmg-group.com or SEDAR at www.sedar.com.

MANAGEMENT REPORT OF FUND PERFORMANCE

Investment Objective and Strategies

BMG Gold BullionFund (the “BMG Fund”) invests only in unencumbered, fully allocated physical gold that is held by The Royal Bank of Canada. The BMG Fund’s objective is to provide a secure and convenient method for investors seeking to hold gold bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes.

All physical bullion purchased by the BMG Fund meets the London Good Delivery standard as set out by the London Bullion Market Association (“LBMA”).

The economic factors that determine the price of gold are, in most cases, opposed to the factors that determine the prices of most other financial assets. Ownership of BMG Fund units, therefore, acts as a hedge against the volatility of other investments. Units of a class of the BMG Fund are not speculative, and are only intended to be one part of an investment strategy.

A small portion of the BMG Fund's assets (generally no more than 5%) may be held in cash to allow the BMG Fund to pay its expenses, and to facilitate any redemption of units of a class of the BMG Fund. The BMG Fund will not use derivatives or invest in securities or certificates of companies that produce gold bullion. The BMG Fund will not invest in foreign securities, and it does not hedge its holdings. The value of the BMG Fund, therefore, is purely a function of the spot price of gold bullion. The BMG Fund’s objectives and strategies did not change in 2021.

Risk

The risks associated with investing in the BMG Fund remain as stated in the simplified prospectus dated November 25, 2021. The principal risk associated with investing in the BMG Fund is the fluctuating price of gold, as well as fluctuations in the relationship between the Canadian and US dollars. In addition, the BMG Fund will be subject to precious metals risk, non-hedging strategy risk and specialization risk. Our view of the BMG Fund’s risk rating was unchanged in 2021.

Results of Operations

All monetary amounts are expressed in Canadian dollars, unless otherwise indicated.

In 2021, the net asset value (“NAV”) of the BMG Fund decreased 15.8% from \$118.5 million at December 31, 2020 to \$99.8 million at December 31, 2021. The decrease was primarily driven by \$6.7 million in realized and unrealized losses on bullion, \$9.7 million in net redemptions and \$2.2 million in expenses. As at December 31, 2021, the BMG Fund’s gold holdings were 43,668 ounces, compared to 49,028 ounces at December 31, 2020.

For the year ended December 31, 2021, the NAV per unit of the BMG Fund’s Class A units decreased by 8.2% in Canadian dollars, and 7.4% in US dollars, while the NAV per unit of the BMG Fund’s Class F units decreased by 7.2% in Canadian dollars, and 6.4% in US dollars. The better performance in US dollars is due to the Canadian dollar appreciation of 0.9% against the US dollar in 2021. Please see *Past Performance* for the performance data of other classes.

In 2021, the gold price decreased by 4.6%, from US\$1,893.10 on December 31, 2020 to a high of US\$1,909.90 per ounce in June, and closed at US\$1,805.85 on December 31, 2021.

Recent Developments

Covid-19 continued to provide shocks across the global economy in 2021. Elevated levels of uncertainty that became present in 2020 continued through 2021, as many corporations and small businesses continued to change the way they operated. Gold continues to be a safe haven against COVID-19-induced economic losses and turmoil.

MANAGEMENT REPORT OF FUND PERFORMANCE (*continued*)

Demand for gold is continuously rising according to the World Gold Council (“WGC”). Demand for gold reached 1,147 tonnes in Q4 2021, an increase of almost 50% year-on-year; gold bars and coin demand rose 31% to an 8-year high as retail investors sought a safe haven against the backdrop of rising inflation and ongoing economic uncertainty caused by the coronavirus pandemic.

The effects of the pandemic-related lockdowns were apparent with respect to major global economies, as both Canada and the US experienced significant declines in gross domestic product (“GDP”). Government money-printing camouflages the real drop in GDP, but the reality of overall globally reduced economic activity, unemployment, mass terminations, huge losses in hospitality sectors, negative effects on education, and a divided society causing the demise of communities still continue for millions that have been affected by COVID restrictions.

Canada’s GDP declined 5.3% in 2020, while US real GDP declined 3.4%. These drops were synonymous globally; the average worldwide decline in real GDP was 4.2%. In 2021, as restrictions implemented in 2020 were lifted, the economy began to rebound significantly, entering a period of super-charged growth. Canada and the US grew by 6.7% and 5.7% respectively in 2021, driving concerns of additional inflation. The risk of future inflation presents an excellent catalyst for gold in the future. Canadian annual inflation was 3.9% in 2021, well above the 2% originally forecasted, and is projected to be 4.8% for 2022—a 30-year high. Any belief that this rise in inflation is transitory has evaporated. Growth for 2022 will likely stall as interest rates are eventually increased to combat inflation and this, coupled with inflation, presents a real possibility for stagflation to occur.

To combat the repercussions caused by the lockdowns, central banks across the world continue to inflate their balance sheets to aid their attempts to provide stability in the markets, but they have been slow to make rate hikes or reduce their bond buying. Canada and most advanced economies face similar financial and economic realities. In its latest Global Financial Stability Report, the International Monetary Fund (“IMF”) identified several key vulnerabilities in the global financial system. In particular, it pointed to signs of excessive risk-taking and stretched valuations. Given these elevated financial vulnerabilities, a sudden decline in investors’ risk appetite—perhaps due to a major setback in the global recovery from the pandemic—could result in a sharp deterioration in global financial conditions.

Conventional value measures like the P/E ratio continue to be at historic highs, but P/E ratios can be unreliable in a period of extremely low interest rates. Current P/E ratios exceed even 1929 values, and with margin debt 314% higher than its 2008 level, it is clear that the equity markets are poised for a major correction. In addition to an overheated stock market, the housing market appears to be in the same situation, with the S&P/Case-Shiller 20 City Index 86% higher than the 2008 value, with 17% of that increase coming in 2021 alone. With interest rates at or near zero, yields on government paper are largely negative, providing a poor return that will continue to drive investors into riskier assets, as evidenced by the continued narrowing of the spread between speculative and government bonds.

Given the current paradigm, the critical value of properly balancing asset classes of different correlations in order to maximize portfolio returns and minimize risk is evident. Adding 10% in gold bullion to a standard 60/40 portfolio increases the compound annual growth rate from 6.59% to 7.07%, while increasing the Sharpe ratio from .61 to .70. Adding 20% in gold bullion to a portfolio increases the compound annual growth rate from 6.59% to 7.52%, while increasing the Sharpe ratio from .61 to .77.

Overall, gold has had superior returns from a historical and relative context. Some of the gains from 2020 were returned in 2021 as the world returned to pre-pandemic levels and the search for yield continued to drive investment into riskier assets.

MANAGEMENT REPORT OF FUND PERFORMANCE (*continued*)

In Canada, gold began 2021 at US\$2,411.81 and ended the year at US\$2,281.06, which represents a 5.4% decline. In the US, gold began 2021 at US\$1,893.10 and ended the year at US\$1,805.85, which represents a 4.6% decline.

The existing economic conditions and potential of downside catalysts due to mounting geopolitical unrest, excessive government borrowing, and overheated markets is a formula for stagflation. Gold has been the best-performing asset class during past periods of stagflation. As a result, we anticipate that gold will outperform all other asset classes in 2022.

Related-Party Transactions

Manager and Trustee

BMG Management Services Inc. (“the Manager”) is the manager, trustee, registrar and transfer agent for the BMG Fund. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. At December 31, 2021, the Manager held no units of the BMG Fund.

In consideration of management and administrative services, the BMG Fund pays the Manager a monthly management fee based on the NAV of the various classes of units of the BMG Fund, calculated daily. For the year ended December 31, 2021, the BMG Fund incurred management fees of \$1,542,706.

Distributor

BMG Marketing Services Inc., an affiliate of the Manager, has been retained by the Manager to assist with the marketing and distribution of units of the BMG Fund in the exempt market pursuant to prospectus exemptions.

Independent Review Committee

The Manager has created an independent review committee (“IRC”) to review and provide impartial judgment on conflict of interest matters. The IRC reviews potential conflicts of interest referred to it by the Manager, and makes recommendations on whether a course of action is fair and reasonable for the BMG Fund. The IRC prepares an annual report of its activities for interested parties. A copy of the IRC’s report for 2021 is available at www.bmg-group.com.

FINANCIAL HIGHLIGHTS

The following tables show selected key financial information about each class of units of the BMG Fund, and are intended to help you understand the BMG Fund's financial performance for the years shown ended December 31, and/or from the period since the particular class was first offered. The information is derived from the BMG Fund's financial statements.

THE FUND'S NET ASSETS PER CLASS A UNIT	2021	2020	2019	2018	2017

FINANCIAL HIGHLIGHTS *(continued)*

Explanatory Notes to Financial Highlights

Fund's Net Assets per Unit of each Class

(1) This information is derived from the BMG Fund's financial statements. In the period a BMG Fund or class is established, the financial information is provided from the date a particular class was first offered to the end of the period. The NAV per class presented in the financial statements does not differ from the NAV per class calculated for fund pricing purposes.

(2) Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) in net assets from operations is based on the weighted average number of units outstanding over the fiscal period. This table is not intended to be a reconciliation of opening and closing net assets per unit.

(3) The BMG Fund did not make any distributions.

Ratios and Supplemental Data

(1) This information is provided as at the end of the period shown.

(2) The management expense ratio is based on total expenses for the stated period, and is expressed as an annualized percentage of daily average NAV during the period.

(3) The trading expense ratio represents the total commissions and other portfolio transaction costs expressed as an annualized percentage of NAV during the period.

(4) The BMG Fund's portfolio turnover rate indicates how actively the BMG Fund's gold bullion investments are traded. A portfolio turnover rate of 100% is equivalent to the BMG Fund buying and selling all its gold bullion once in the course of the relevant period. There is no trading cost payable by the BMG Fund. The higher a portfolio turnover rate in a year, the greater the chance of an investor receiving taxable capital gains in the year. There is not necessarily a relationship between a high turnover rate and the performance of the BMG Fund.

Management Fees

Management fees are paid by each class of the BMG Fund to the Manager, and are calculated at the applicable annual percentage of the NAV of each class of the BMG Fund. A portion of the management fees paid by the BMG Fund is for trailer fees paid to dealers. The Manager provides, or arranges for the provision of, all management and administrative services for day-to-day operations, including providing fund and unitholder accounting, recordkeeping and other administrative services. The trailer fees are a percentage of the daily average NAV of the applicable class of units of the BMG Fund that are held by the dealers' clients. No trailer fees are paid with respect to Class C2, Class C3, Class F or Class S1 units of the BMG Fund. The table below outlines the BMG Fund's annual management fees for Class A, Class B3, Class C2, Class C3, Class D, Class F, Class S1 and Class S2 units, and how those fees are split between trailer fees and portfolio administration.

	Class A	Class B3	Class C2	Class C3	Class D	Class F	Class S1	Class S2
Management Fee	2.25%	1.25%	0.87%	0.75%	1.50%	1.25%	0.45%	0.95%
Portfolio Administration Fee	55.6%	60%	100%	100%	83.3%	100%	100%	47.4%
Trailer Fee <i>(maximum rate as a percentage of management fees)</i>	44.4%	40%	0%	0%	16.7%	0%	0%	52.6%

Out of the management fees that the Manager received from the BMG Fund, the Manager paid trailer fees of \$536,021 during the year ended December 31, 2021.

Operating Expenses

During 2021, the Manager did not absorb BMG Fund operating expenses, because the management expense ratios were below the expense cap. The decision to reduce operating expenses is made at the discretion of the Manager, and may be changed at any time.

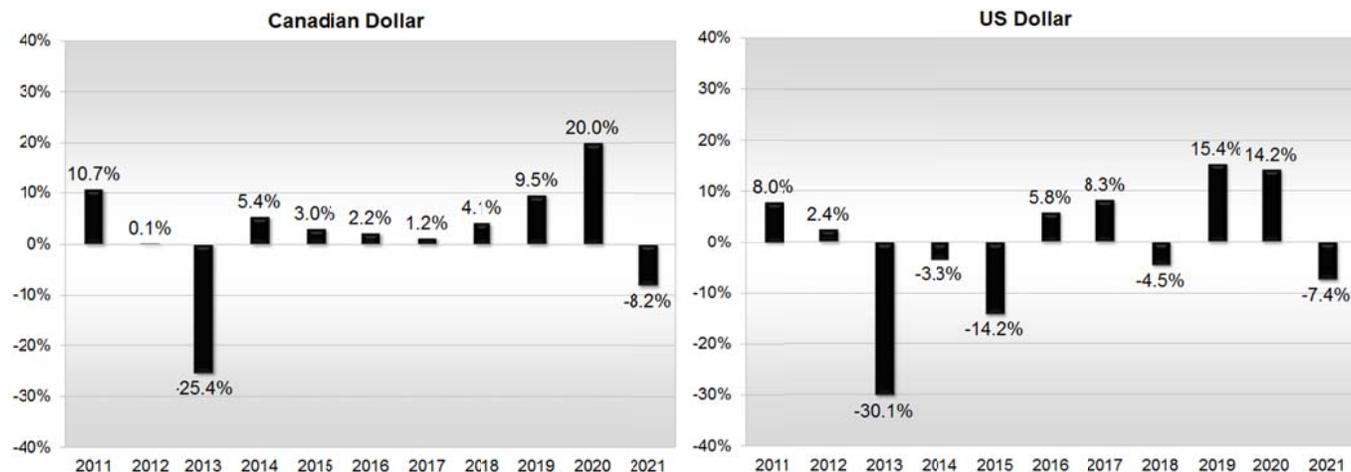

PAST PERFORMANCE

The following information does not take into account sales or redemption charges that would have reduced returns. Past performance does not necessarily indicate how the BMG Fund will perform in the future.

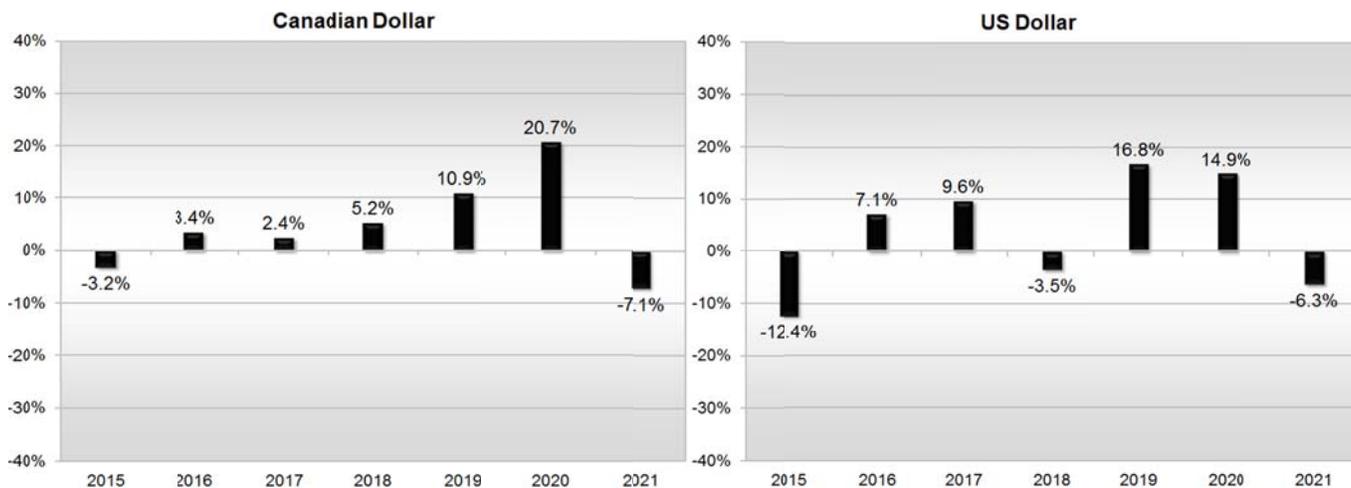

Year-by-Year Returns

The following bar charts show the BMG Fund's performance for each class of units of the BMG Fund in Canadian and US dollars, as applicable, in each of the years shown. They illustrate how the BMG Fund's performance has changed from year to year. In percentage terms, the charts show how much an investment made on the first day of each financial year has increased or decreased by the last day of each financial year.

Class A

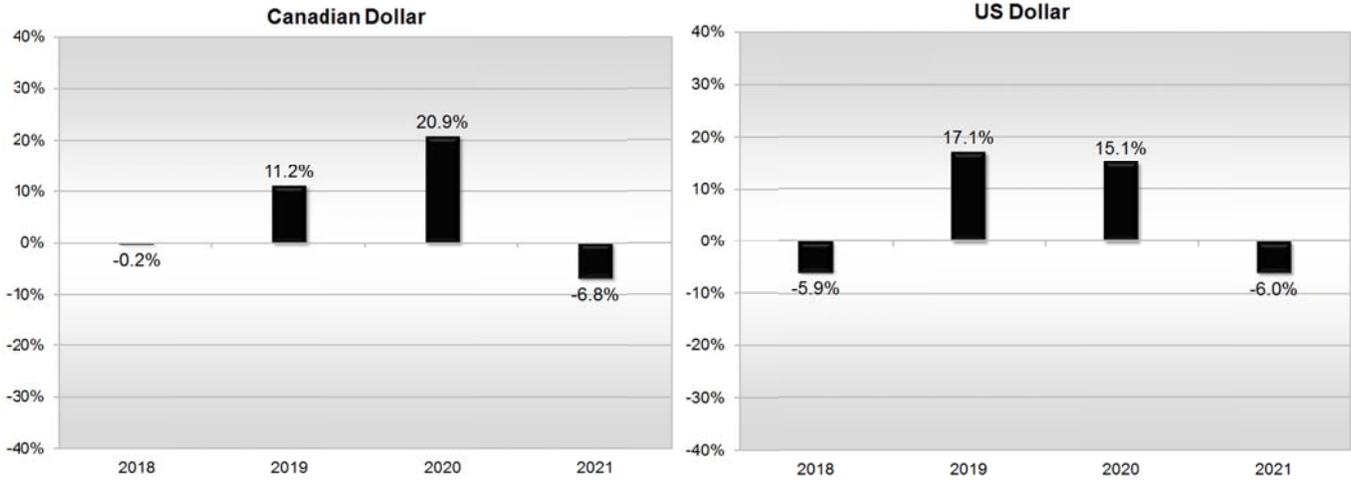

Class B3

The return shown for 2015 is for the period from March 27, 2015, the date the Class B3 units were first offered.

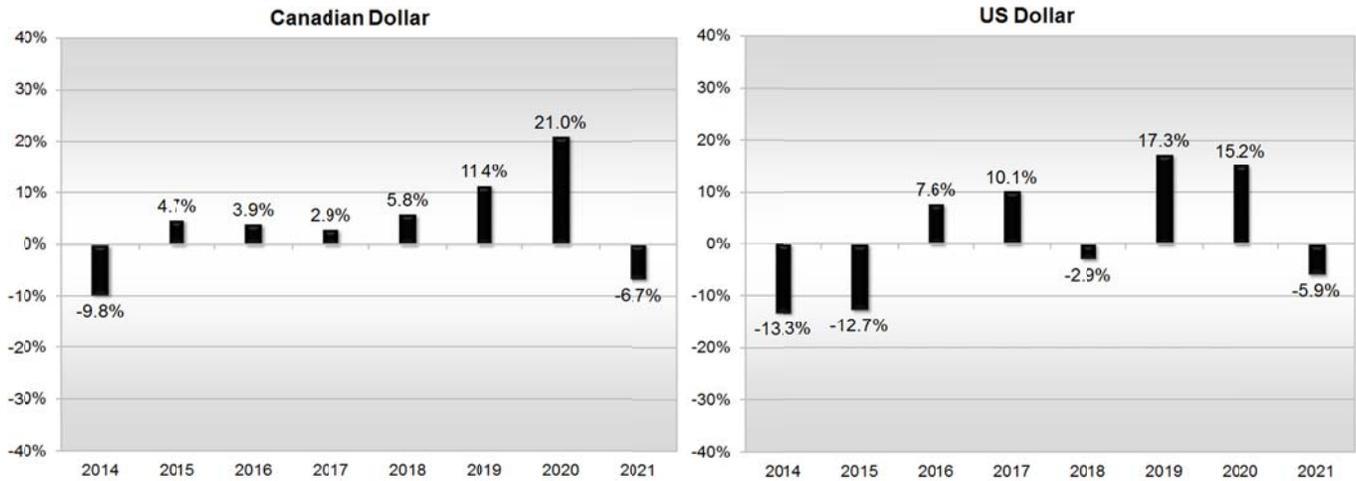

PAST PERFORMANCE (continued)

Class C2

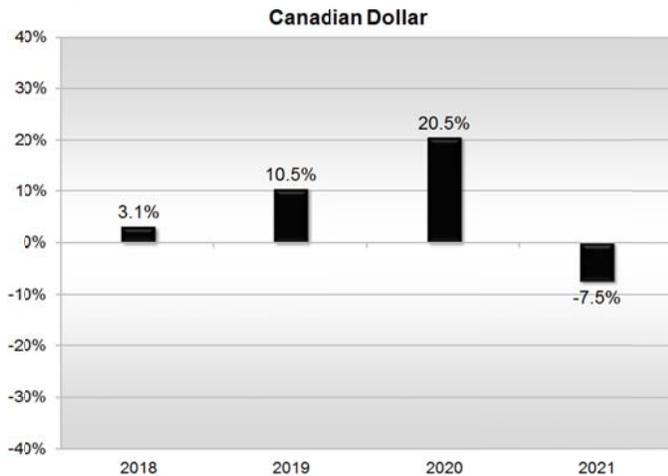

The return shown for 2018 is for the period from March 27, 2018, the date the Class C2 units were first offered.

Class C3

The return shown for 2014 is for the period from March 12, 2014, the date the Class C3 units were first offered.

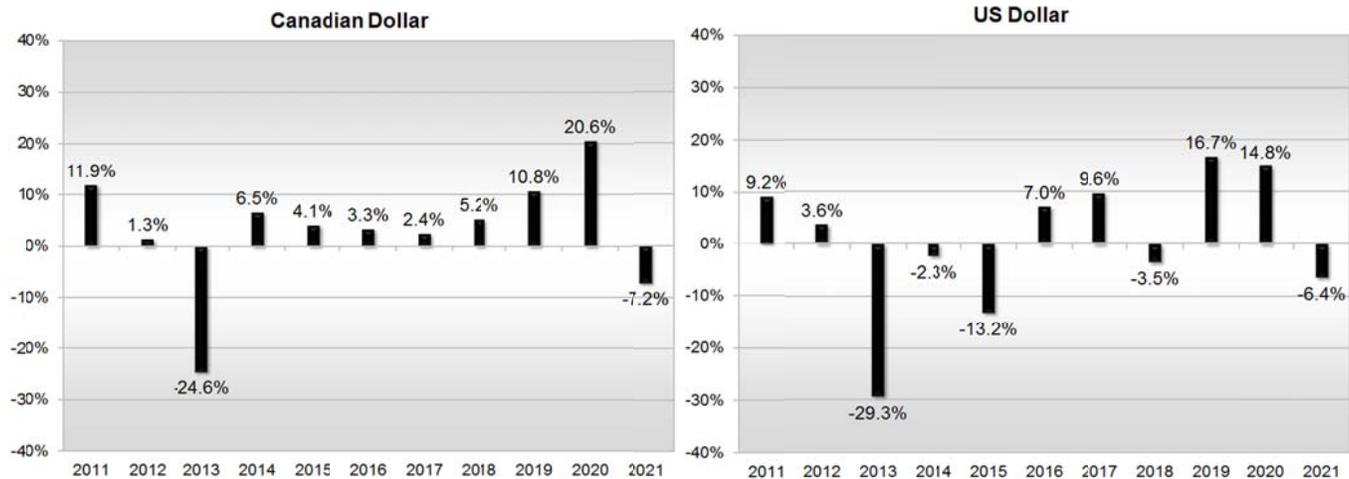

Class D

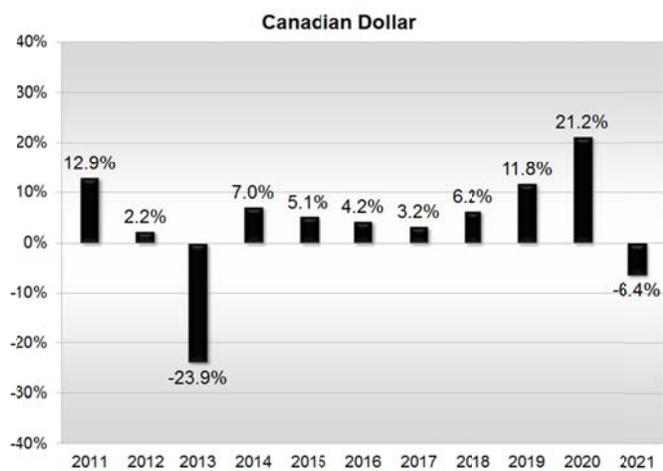

The return shown for 2018 is for the period from January 16, 2018, the date the Class D units were first offered.

Annual Compound Returns

The following table shows the annual compound total returns for each class of units of the BMG Fund in Canadian dollars and US dollars since inception, or for the ten-, five-, three- or one-year periods ended on December 31, 2020, as applicable. Annual returns in Canadian dollars are compared to inflation as measured by the Canadian Consumer Price Index (“CPI”) as calculated by Statistics Canada, as well as to Bank of Canada’s 3-month Treasury Bills. Annual returns in US dollars are compared to inflation as measured by the US CPI as calculated by the US Department of Labor, as well as to US 3-month Treasury Bills.

BMG Gold BullionFund

Annual Financial Statements

For the years ended December 31, 2021 and 2020

BMG
MANAGEMENT
SERVICES INC.
A BMG Company

MANAGEMENT RESPONSIBILITY FOR FINANCIAL REPORTING

The accompanying financial statements of BMG Gold BullionFund (the “BMG Fund”) have been prepared by BMG Management Services Inc., in its capacity as manager (the “Manager”) of the BMG Fund, and have been approved by the Board of Directors of BMG Management Services Inc. The Board of Directors is responsible for the information and representations contained in these financial statements, and in the Management Report of Fund Performance.

The Manager maintains appropriate processes to ensure that relevant and reliable financial information is produced. The financial statements have been prepared in accordance with International Financial Reporting Standards, and include certain amounts that are based on estimates and judgments made by the Manager. The significant accounting policies that the Manager believes are appropriate for the BMG Fund are described in Note 2 to the financial statements.

The Audit Committee of the Board of Directors is responsible for reviewing the financial statements and the Management Report of Fund Performance, and for recommending them to the Board of Directors of the Manager for approval, in addition to meeting with management and external auditors to discuss internal controls over the financial reporting process, auditing matters and financial reporting issues.

RSM Canada LLP is the external auditor of the BMG Fund, and is appointed by the trustee of the BMG Fund. The auditor of the BMG Fund has audited the financial statements in accordance with Canadian Generally Accepted Auditing Standards to enable it to express to the unitholders its opinion on the financial statements. The auditor’s report is set out herein.

Independent Auditor's Report

INDEPENDENT AUDITOR'S REPORT

To the Unitholders of BMG Gold BullionFund

Opinion

We have audited the financial statements of BMG Gold BullionFund, (the "Fund"), which comprise the statements of financial position as at December 31, 2021 and 2020 and the statements of comprehensive income (loss), changes in net assets attributable to holders of redeemable units and cash flows for the years then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as at December 31, 2021 and 2020, and its financial performance and its cash flows for the years then ended in accordance with International Financial Reporting Standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other Information

Management is responsible for the other information. The other information comprises Management's Report of Fund Performance.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

We obtained the Management's Report of Fund Performance prior to the date of this auditor's report. If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with International Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

	Allocated ounces	Unallocated ounces	Total Fine ounces	Average Cost \$	Fair Value \$	Total %
Gold Bullion	48,218.196	810.086	49,028.282	80,695,719	118,246,774	99.8
Net Investment				80,695,719	118,246,774	99.8
Cash and Other Assets Less Liabilities					283,040	0.2
Net assets attributable to holders of redeemable units					118,529,814	100.0

The BMG Fund's gold bullion is held pursuant to a custodial agreement with a major Canadian chartered bank (or subsidiary thereof) on an allocated, segregated basis.

The allocated gold bullion is recorded by refinery, exact weight in ounces and identification number.

The BMG Fund's gold bullion is free and clear of any lien or claim that the major Canadian chartered bank (or subsidiary thereof) may have, except where the claim arises from any unpaid costs.

NOTES TO FINANCIAL STATEMENTS

1. Formation of the Fund

BMG Gold BullionFund (the “BMG Fund”) was established under the laws of Ontario by a Master Declaration of Trust and Regulation each dated September 4, 2009, as amended. The address of the BMG Fund’s registered office is: 110 Cochrane Drive, Suite 200, Markham, ON L3R 9S1. BMG Management Services Inc. (the “Manager”) is the trustee and manager of the BMG Fund. The BMG Fund currently offers ten classes of units.

The classes were first offered on the following dates:

Class A	September 4, 2009	Class F	January 18, 2010
Class B3	March 27, 2015	Class G09	June 10, 2010
Class C2	March 27, 2018	Class I	April 04, 2018
Class C3	March 12, 2014	Class S1	November 9, 2010
Class D	January 16, 2018	Class S2	November 9, 2010

All classes share the same attributes from a valuation perspective, except that they are subject to different management fee rates.

The BMG Fund invests only in gold bullion, with the objective of providing a secure, convenient, low-cost alternative for investors seeking to hold gold bullion for capital preservation, long-term appreciation, portfolio diversification and portfolio hedging purposes. The BMG Fund’s fixed investment strategy avoids the need for a portfolio manager.

The Manager has been monitoring developments related to Covid-19, including the existing and potential effect on global and local economies, and continues to carry out its business continuity plan, thus ensuring minimal interruption to the business. Governments worldwide have put various measures in place to contain the spread of the virus; these have directly and indirectly affected many businesses. The longer-term effects of the Covid-19 situation will depend on future developments that are highly uncertain, rapidly evolving and difficult to predict. These effects may differ in magnitude depending on a number of scenarios, which the Manager continues to monitor and take into consideration.

The financial statements were authorized for issue by the Board of Directors of the Manager on March 22, 2022.

2. Summary of Significant Accounting Policies

The principal accounting policies applied in the preparation of these financial statements are set out below.

Basis of Preparation

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of investments in gold bullion at fair value through profit or loss, and are presented in Canadian dollars, which is the BMG Fund’s functional and presentation currency.

Financial Instruments

(a) Classification

The BMG Fund classifies its investments in gold bullion based on both the Fund’s business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The performance of the investments in gold bullion is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. As such, the BMG Fund classifies its investments in gold bullion at fair value through profit or loss.

The Fund’s obligation for net assets attributable to holders of redeemable units represents a financial liability and is measured at the redemption amount, which approximates fair value as of the reporting date. All other financial assets and liabilities are measured at amortized cost.

NOTES TO FINANCIAL STATEMENTS *(continued)*

(b) Recognition/derecognition

Purchases and sales of investments in gold bullion are recognized on the trade date, the date on which the BMG Fund commits to purchase or sell the investment. Transaction costs for such instruments are recognized directly in the Statements of Comprehensive Income as incurred. Financial assets classified at amortized cost are recognized on the day that they are transferred to the BMG Fund at fair value, plus transaction costs that are directly attributable to their acquisition or issue.

Financial assets are derecognized when the rights to receive cash flows from the assets have expired, or the BMG Fund has transferred substantially all risks and rewards of ownership.

Financial liabilities, other than those at fair value through profit or loss, are recognized initially at fair value plus transaction costs that are directly attributable to their acquisition or issue. Financial liabilities arising from the redeemable units issued by the BMG Fund are presented at the redemption amount representing the investors' right to a residual interest in the BMG Fund's assets.

Realized gains and losses on investments in gold bullion are recognized as "Net realized gains on investments in gold bullion" in the Statements of Comprehensive Income. Costs of investments in gold bullion are determined on an average cost basis.

(c) Subsequent measurement

Subsequent to initial recognition, the BMG Fund measures all financial instruments classified at fair value through profit or loss at fair value, with changes in the fair value recognized as "Change in net unrealized gains (losses) on investments in gold bullion" in the Statements of Comprehensive Income(Loss). Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. The fair value of financial instruments traded in active markets is based on their quoted market prices at the close of trading on the reporting date. The fair value of financial instruments that are not traded in an active market, if any, is determined using a valuation technique, or sourced from a reputable broker/counterparty.

(d) Fair value measurement

Fair value is the price that would be received on the sale of an asset, or paid to transfer a liability in an orderly transaction between market participants at the measurement date in the principal or, in its absence, the most advantageous market to which the BMG Fund has access at that date.

The value of gold bullion is priced based on available spot prices. The difference between the gold bullion spot price and the average cost is shown as "Change in net unrealized gains on investments in gold bullion."

The fair values of investments denominated in foreign currencies are translated into Canadian dollars at the rates of exchange applicable on the relevant valuation date.

(e) Classification of fair value measurement

IFRS 13 requires the BMG Fund to classify fair value measurement using a fair value hierarchy that reflects the significance of the inputs used in making the measurement. The fair value hierarchy has the following levels:

Level 1	Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the BMG Fund can access at the measurement date
Level 2	Inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
Level 3	Inputs are unobservable inputs for the asset or liability

Fair value of investments in gold bullion is classified at Level 1 within the fair value hierarchy.

NOTES TO FINANCIAL STATEMENTS (continued)

Income and Expense Recognition

The BMG Fund follows the daily accrual method of recording investment income and expenses. Expenses, such as management fees, specifically related to each class of units of the BMG Fund are charged directly to that class of units. Income, expenses and realized and unrealized gains (losses) are allocated to each class of the BMG Fund based on that class's pro-rated share of the total net assets of the BMG Fund.

Foreign Currency Translation

The BMG Fund's subscriptions and redemptions are denominated in Canadian dollars, which is also its functional and presentation currency. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing on the dates that transactions occur. Foreign currency monetary assets and monetary liabilities are translated into the functional currency using the exchange rate prevailing on the measurement date. Foreign exchange gains and losses are presented in the Statements of Comprehensive Income(Loss).

Calculation of Per-Unit Net Asset Value ("NAV") Attributable to Holders of Redeemable Units

The NAV of each class of units of the BMG Fund is calculated in Canadian dollars at 4:00 p.m. (EST) on each day that the Toronto Stock Exchange is open for trading.

The NAV per unit of each class of the BMG Fund that is used for subscriptions and redemptions is the same as the net assets attributable to holders of redeemable units per unit of that class that is used in these financial statements.

A separate NAV is calculated for each class of units of the BMG Fund by taking that class's proportionate share of the BMG Fund's assets less that class's proportionate share of the BMG Fund's common liabilities and deducting from this amount all liabilities that relate solely to that specific class. The NAV per unit for each class is determined by dividing the NAV of each class by the number of units of that class outstanding at the relevant valuation date.

Income Taxes

The BMG Fund qualifies as a mutual fund trust under the Income Tax Act (Canada). All of the BMG Fund's net income for tax purposes and sufficient capital gains realized in any period are required to be distributed to unitholders such that no tax is payable by the BMG Fund. As a result, the BMG Fund does not record income taxes. Since the BMG Fund does not record income taxes, the tax benefit of capital and non-capital losses has not been reflected in the Statements of Financial Position as a deferred income tax asset. Refer to Note 6 for unused income tax losses.

Increase (Decrease) in Per-Unit Net Assets Attributable to Holders of Redeemable Units

Any increase (decrease) in per-unit net assets attributable to holders of redeemable units represents the change in net assets attributable to holders of redeemable units of each class divided by the weighted average number of units of that class of the BMG Fund outstanding during the period (see Note 3).

Critical Estimates and Judgments

In the application of the BMG Fund's accounting policies, management is required to make judgments, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily available from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Manager considers the currency of the primary economic environment in which the BMG Fund operates to be the Canadian dollar, as this is the currency that, in their opinion, most faithfully represents the economic effects of underlying transactions, events and conditions. Furthermore, the Canadian dollar is the currency in which the BMG Fund measures its performance, and also issues and redeems its redeemable units.

NOTES TO FINANCIAL STATEMENTS *(continued)*

New Standards, Interpretations and Amendments effective January 1, 2021

The BMG Fund did not have to change its accounting policies or make retrospective adjustments for new or amended standards that are applicable for the current reporting period.

New Standards, Interpretations and Amendments effective after December 31, 2021 that have not been early adopted

No new standards and interpretations that are effective after December 31, 2021, have been early adopted in preparing these financial statements.

3. Redeemable Units

Each unit of each class of the BMG Fund represents an interest in the assets of that class of the BMG Fund. All units of a class of the BMG Fund generally have the same rights and privileges. Each unit of each class of the BMG Fund is entitled to one vote at any meeting of unitholders of the BMG Fund. Each unit of each class of the BMG Fund is also entitled, subject to any management fee distributions, to participate equally in any distributions by the BMG Fund. Fractional units of a class of the BMG Fund are proportionately entitled to all the same rights as other units of that class of the BMG Fund, except that they are non-voting. All units of each class of the BMG Fund are fully paid when issued, and are generally not transferable. Units of each class of the BMG Fund are redeemable at the option of the unitholder owning such units. The number of units of the BMG Fund that may be issued is unlimited. The units of each class of the BMG Fund are issued and redeemed at the NAV per unit of that class of the BMG Fund. There are no differences between the NAV per unit of each class of the BMG Fund and the Net Assets Attributable to Holders of Redeemable Units per Unit of each class of the BMG Fund.

NOTES TO FINANCIAL STATEMENTS *(continued)*

4. Related-Party Transactions

Management Fees

The Manager is responsible for the day-to-day activities of the BMG Fund, providing or arranging for all required administrative services, and arranging for the distribution of units of the BMG Fund. For these services, the BMG Fund pays the Manager an annual management fee as defined by the rates set out below. The fees are payable monthly in arrears based on the average daily net assets of the BMG Fund.

Class A	2.25%	Class F	1.25%
Class B3	1.25%	Class G09	1.25%
Class C2	0.87%	Class I	0.00%
Class C3	0.75%	Class S1	0.45%
Class D	1.50%	Class S2	0.95%

For the year ended December 31, 2021, the BMG Fund incurred management fees of \$1,542,706 [2020: \$1,774,689].

Holdings of Related Party

The Manager did not hold any units of funds on December 31, 2021 and 2020.

5. Sales Commission

A sales commission may be charged by a registered dealer or representative at the time an investor buys Class A units, Class B units, Class G units or Class S units of the BMG Fund. The maximum amount of the sales commission for Classes A, B, and G is 5.00% of the net amount invested, and for Class S 5.00% of the net amount invested. The sales commission is only negotiable for Classes A, B and G. No sales commission is currently charged for the other classes of units of the BMG Fund.

The Manager paid trailer fees to dealers of \$536,021 during the 2021 fiscal year [2020: \$618,014].

6. Income Tax Loss Carryforwards

As at December 31, 2021, the BMG Fund had no capital or non-capital losses available to offset future years' taxable income.

For tax purposes, the BMG Fund generally treats gains from the disposition of bullion as capital gains, rather than income, as it intends to be a long-term passive holder of bullion, and it generally disposes of its holdings in bullion only for the purposes of meeting redemptions or to fund the payment of expenses incurred by the BMG Fund. The Canada Revenue Agency has, however, expressed the opinion that gains or losses of mutual fund trusts resulting from transactions in commodities should generally be treated for tax purposes as ordinary income rather than as capital gains, although the treatment in each particular case remains a question of fact to be determined having regard to all the circumstances. The Canada Revenue Agency may assert that its position applies to BMG Fund's transactions in respect of bullion.

7. Financial Risk Management

The BMG Fund's financial instruments consist primarily of cash, subscriptions receivable, investments in gold bullion, management fees payable, redemptions payable, and accounts payable and accrued liabilities. The BMG Fund's cash and gold bullion holdings are exposed to various types of risk, including market risk, credit risk, liquidity risk, interest rate risk and currency risk. These risks and related risk-management practices employed by the BMG Fund are described below.

Market Risk

Market risk is the risk that the fair value or future cash flows of gold bullion investments will fluctuate because of changes in market prices or transaction timing. The market price of gold is affected by a variety of factors, including demand, supply, international events and economic events. The BMG Fund employs a purchase-and-hold investment strategy with purchases in one type of investment. Since the BMG Fund does not lease gold, the only future cash flows will be from dispositions of gold bullion. Dispositions of bullion will be necessary to pay redemptions when cash reserves are not adequate.

NOTES TO FINANCIAL STATEMENTS (continued)

As at December 31, 2021, the effect on the BMG Fund's net assets if there were a 5% increase or decrease in the price of gold bullion, with all other variables held constant, would be an increase, or decrease, of \$4,981,565 [December 31, 2020: \$5,912,339].

The actual result will vary depending upon the quantity of gold held and other factors, and the difference may be material.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. As at December 31, 2021 and 2020, the BMG Fund had no investments in debt instruments and/or derivatives. The BMG Fund limits its exposure to credit loss by placing its cash in high-credit-quality issuers. Dispositions of gold bullion, if any, are with a major Canadian chartered bank (or subsidiary thereof) that is a recognized dealer in bullion. The BMG Fund may have credit exposure to the Canadian chartered bank (or subsidiary thereof) to the extent of any unsettled trades.

Liquidity Risk

Liquidity risk is the risk that a fund may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. The BMG Fund is exposed to daily cash redemptions of redeemable units. The BMG Fund aims to retain sufficient cash positions to maintain liquidity. In addition, gold bullion is readily realizable and liquid. Therefore, the BMG Fund's liquidity risk is minimal. All liabilities are payable within a year. Redeemable units are redeemable on demand at the holder's option. However, the Manager does not expect that the contractual maturity will be representative of the actual cash outflows, as holders of these instruments typically retain them for longer periods. The tables below analyze the BMG Fund's financial liabilities into relevant maturity groupings based on the remaining period to the contractual maturity date. The amounts in the table are contractual undiscounted cash flows.

December 31, 2021

Financial liabilities	On demand	< 3 Months	Total
Management fees payable	\$ -	\$ 135,921	\$ 135,921
Redemptions payable	-	13,500	13,500
Accounts payable and accrued liabilities	-	272,629	272,629
Redeemable units	99,823,818	-	99,823,818

December 31, 2020

Financial liabilities	On demand	< 3 Months	Total
Cash overdraft	\$ 1,250	\$ -	\$ 1,250
Management fees payable	-	163,487	163,487
Redemptions payable	-	31,510	31,510
Accounts payable and accrued liabilities	-	224,163	224,163
Redeemable units	118,529,814	-	118,529,814

Interest Rate Risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of market interest rates on the fair value of financial assets and liabilities and future cash flow. The majority of the BMG Fund's financial assets and liabilities were non-interest-bearing as at December 31, 2021 and 2020. Accordingly, the BMG Fund is not exposed to significant risk due to fluctuations in the prevailing levels of market interest rates.

Currency Risk

Foreign currency risk arises as the value of future transactions, recognised monetary assets and monetary liabilities denominated in other currencies fluctuate due to changes in foreign exchange rates. Gold bullion is generally quoted and traded in US dollars and, as a result, the BMG Fund is subject to foreign currency risk. The BMG Fund does not hedge its foreign currency exposure.

NOTES TO FINANCIAL STATEMENTS (continued)

The BMG Fund holds cash in Canadian and US dollars to pay redemptions and operating costs. The Manager monitors the cash balance of the BMG Fund on a daily basis, and only purchases gold bullion when surplus cash is available. Normally the cash balance is less than 5% of the assets of the BMG Fund.

As at December 31, 2021, 100.0% [2020: 100.0%] of the BMG Fund's net assets were exposed to US dollars. If the exchange rate with the Canadian dollar increased or decreased by 1% with all other variables held constant, net assets would have increased or decreased respectively by approximately \$998,258 [2020: \$1,184,885].

Actual results may differ from this sensitivity analysis and the difference could be material, because the price of bullion tends to be negatively correlated with the US dollar.

Foreign Currency Exposure

8. Capital Management

Redeemable units issued and outstanding are considered to be the capital of the BMG Fund. The BMG Fund does not have any specific capital requirements on the subscription and redemption of units, other than certain minimum subscription requirements. Unitholders are entitled to require payment of the net asset value per unit of the BMG Fund for all or any of the units of such unitholder by giving written notice to the Manager. The written notice must be received no later than 4:00 p.m. EST on the valuation day upon which the units are to be redeemed. Additionally, the notice must be irrevocable and the signature thereon must be guaranteed by a Canadian chartered bank, a trust company or an investment dealer acceptable to the Manager. The units are redeemable for cash equal to a pro rata share of the BMG Fund's net asset value.

9. Fair Value Measurement

All fair value measurements above are recurring. The carrying values of cash (cash overdraft), subscriptions receivable, accounts payable and accrued liabilities, redemptions payable, management fees payable and the BMG Fund's obligation for net assets attributable to holders of redeemable units approximate their fair values because of their short-term nature. Fair values are classified as Level 1 when the related investment is actively traded and a quoted price is available. If an instrument classified as Level 1 subsequently ceases to be actively traded, it is transferred out of Level 1. In such cases, instruments are classified into Level 2, unless the measurement of their fair value requires the use of significant unobservable inputs, in which case they are classified as Level 3.

There were no transfers between levels for the years ended December 31, 2021 and 2020. In addition, there were no investments or transactions classified in Level 3 for the years ended December 31, 2021 and 2020.
